question and answer sections and chapters that vary from describing diagnostic issues to stating very specifically how to expand and evaluate the services one is receiving The comprehensive references and lists of additional resources also add greatly to the overall package As a professional dedicated to understanding scientific advances and helping families and teachers to utilize them most effectively I am very pleased to have an ally like this book available I am very grateful to the authors for providing a very credible practical and relevant addition to our field to help the many advocates and family practitioners to better understand the exciting new developments and how they can be implemented in our day to day work Those taking the time to read through this superb volume will find it time well spent that pays back dividends in many different ways FOREWORD by Gary B Mesibov Ph D Professor and Director of TEACCH Treatment and Education of Autistic and Related Communication Handicapped Children University of North Carolina at Chapel Hill
