Fitzgerald is the oldest of the fifteen abused Omegas found by Dewey when they took over the dire wolf pack. Now of age and already having been activated by his old Alpha's abuse, life isn't getting any calmer than it was before. But at least he's safe now or isn't he? Beta candidates Lief and Asher feel like they're on the edge of happiness, waiting for the rest of the pieces to fall into place so they can have an inner circle of their own, especially now that they're romantically involved. Love at first sight, it might not be, but when Jaxon sees Brody for the first time, all he can see is his future. But when Brody refuses to take an inner circle, will they be able to push past his walls, or will they take the risk that Brody will never love them and claim him anyway? Note: This book is written in first person point of view. A Siren Erotic Romance.
