Singer,2014-10-08 Now in its 4th edition this popular text for secondary social studies methods courses integrates discussions of educational goals and the nature of history and social studies with ideas for organizing social studies curricula units lessons projects and activities A major theme throughout is that what teachers choose to teach and the way they teach reflect their broader understanding of society history and the purpose of social studies education Advocating an inquiry and activity based view of social studies teaching that respects the points of view of students and teachers and based in practice and experience it offers systematic support and open honest advice for new teachers Each chapter addresses a broad question about social studies education sub chapters begin with narrower questions that direct attention to specific educational issues Lesson ideas and materials in the book and online are especially designed to help new teachers to address common core learning standards to work in inclusive settings and to promote literacy and the use of technology in social studies classrooms Chapters include highlighted Learning Activities Teaching Activities and Classroom Activities designed to provoke discussion and illustrate different approaches to teaching social studies and conclude with recommendations for further reading and links to on line essays about related social studies topics Activities are followed by four categories Think it over Add your voice to the discussion Try it yourself and It s your classroom All of these are supported with online teaching material Designed for undergraduate and graduate pre service social studies methods courses this text is also useful for in service training programs as a reference for new social studies teachers and as a resource for experienced social studies educators who are engaged in rethinking their teaching practice New in the Fourth Edition Provides a number of new lesson ideas paired with online lesson plans and activity sheets in every chapter Takes a new focus on data driven standards based instruction especially in relation to the common core curriculum Addresses the interactive nature of learning in updated technology sections Reflects current trends in history education Includes more of what the author has learned from working teachers Offers a wealth of additional on line material linked to the text      **Struggle for Power the Longest School Strike** Leon Bock Kavunedus, Dr,Leon Bock,2011 Two people participating in the same events yet on opposite sides give an engrossing view of a struggle which engulfed a large community in northern Westchester County in New York State It became the longest teachers strike in New York State s history Even though they are personal memoirs both authors try to give as full a picture of the personalities institutions and issues driving the struggle as each experienced it The narrative is in two parts side by side and event by event Both are impressionistic accounts that do not claim to be objective Dr Leon Bock s account is the viewpoint of a leader of a major

institution the Lakeland School District In representing the district he had the heavy responsibility to merge the interests of students and parents faculty the taxpaying community and the Board of Education Mr Thomas Kavunedus a faculty member served as a negotiator for the Lakeland Federation of Teachers He saw his responsibilities as extending to the promotion of learning and teaching environment which would foster excellence The contract with the school district which Mr Kavunedus had participated in promulgating years earlier was a major step in raising teachers out of the dark ages of coffee in the boiler room and hopefully greater professionalism Both authors disagree with one another on many of the issues Most of these issues bedevil our schools today Yet there is enough civility to recognize that partisanship need not be so all engulfing that it demonizes the other side and its objectives No narrative of such a complex event can be totally accurate and objective The authors try to focus on the interpersonal relationships rather than serve as a textbook history of this series of complex events There is no intention to discredit or malign any of the personalities in the narrative rather they are presented as the writers experienced them under conditions of stress New York School Boards ,1996 **American Education Annual** Mary Alampi,Peter M.
