chapters identifies the situatedness of im politeness from varying perspectives The chapters in the volume are sequenced from specialized to general corpora and simultaneously move from conversation and discourse analytic perspectives to contributions that address issues surrounding the identification and extraction of im politeness in general corpora In collating the chapters of the volume care was taken to focus attention on languages that have been studied extensively in im politeness scholarship varieties of English British English and Englishes in Hong Kong and Greek and languages that are only recently gaining more visibility in the field Slovenian and Turkish
