Barriers to Health Care for Older Americans United States. Congress. Senate. Special Committee on Aging. Subcommittee on Health of the Elderly, 1973

The Role of Human Factors in Home Health Care National Research Council, Division of Behavioral and Social Sciences and Education, Committee on Human-Systems Integration, Committee on the Role of Human Factors in Home Health Care, 2010-11-14 The rapid growth of home health care has raised many unsolved issues and will have consequences that are far too broad for any one group to analyze in their entirety Yet a major influence on the safety quality and effectiveness of home health care will be the set of issues encompassed by the field of human factors research the discipline of applying what is known about human capabilities

and limitations to the design of products processes systems and work environments To address these challenges the National Research Council began a multidisciplinary study to examine a diverse range of behavioral and human factors issues resulting from the increasing migration of medical devices technologies and care practices into the home Its goal is to lay the groundwork for a thorough integration of human factors research with the design and implementation of home health care devices technologies and practices On October 1 and 2 2009 a group of human factors and other experts met to consider a diverse range of behavioral and human factors issues associated with the increasing migration of medical devices technologies and care practices into the home This book is a summary of that workshop representing the culmination of the first phase of the study

Medicare and Medicaid Home Health Benefits United States. Congress. Senate. Committee on Finance. Subcommittee on Health,1979
