Healthcare Finance Louis C. Gapenski, 2002 Fundamentals of Healthcare Finance Louis C. Gapenski, 2009 **Cases in Healthcare Finance** Louis C. Gapenski, 2006 Decision Making in Healthcare Systems Tofigh Allahviranloo, Farhad Hosseinzadeh Lotfi, Zohreh Moghaddas, Mohsen Vaez-Ghasemi, 2023-12-31 This book chooses the topic which is due to the editors' experience in modeling projects in healthcare systems. Also, the transfer of experiences is the reason why mathematical modeling and decision making in the field of health are not given much attention. To this end, the new aspect of this book is the lack of reference needed to carry out projects in the field of health for researchers whose main expertise is not modeling. Students of health, mathematics, management, and industrial engineering fields are in the direct readership with this book. Different projects in the field of healthcare systems can use the topics presented in different chapters mentioned in this book.
