

Song Analysis Paper

Instructions:

Songs are often written about interpersonal relationships such as friendships, romantic partnerships, or parent and child relationships. For this paper, you will select a song that describes an interpersonal relationship. You will then analyze this relationship using concepts, models, and tools that we have learned in our course.

First, select a song that describes an interpersonal relationship. Find the lyrics for the song and submit them in a document separate from your paper.

Next, analyze the song lyrics. What do they tell you about the relationship? What needs are being met or not met? Is the couple on the same page or do they have different perceptions of the situation? Are they just beginning to self-disclose, or do they know one another well?

Then, based on what you learned about the relationship from the song, select 5 concepts, models, or tools to explain what you learned from the song. Do not simply mention that you observed a line in the song, and that made you think of a concept! Really take a deep dive into the concept and tell us about all the things that concept shows us about the relationship.

Paper Formalities:

Your paper should be 4 pages in length. You are welcome to write more should you be so inclined, but you will not be required to write any more than 4.

Because you will be referencing a song and material from our textbook, which are considered outside sources, you must cite them both in-text and on a references page using APA format. The reference page does not count toward your page count! It is simply an edition at the end of the document. You are welcome to do outside research if you wish, but you are not required to.

Speaking of APA, please ensure that your paper aligns with APA student paper guidelines. I will include a link to an APA student sample paper below from OWL Purdue. Please check out their tips for formatting and citation guidelines as well! You will notice APA format calls for a title page. The title page does not count towards the page count! You are also welcome to visit the MSJC Writing Center for help with your formatting, citations, or general writing help.

Song Means: Analysing and Interpreting Recorded Popular Song Professor Allan F Moore, 2013-01-28 Allan F Moore presents a study of recorded popular song from the recordings of the 1920s through to the present day Analysis and

interpretation are treated as separable but interdependent approaches to song Analytical theory is revisited covering conventional domains such as harmony melody and rhythm but does not privilege these at the expense of domains such as texture the soundbox vocal tone lyrics Moore continues by developing a range of hermeneutic strategies largely drawn from outside the field in the most part within psychology and philosophy but still deeply relevant to the experience of song
