Song Of The Pearl:

Literature and the Child James Holt McGavran, James Holt McGavran, 1998-04 The Romantic myth of childhood as a transhistorical holy time of innocence and spirituality uncorrupted by the adult world has been subjected in recent years to increasingly serious interrogation Was there ever really a time when mythic ideals were simple pure and uncomplicated The contributors to this book contend although in widely differing ways and not always approvingly that our culture is indeed still pervaded in this postmodern moment of the very late twentieth century by the Romantic conception of childhood which first emerged two hundred years ago In the wake of the French Revolution and the Industrial Revolution western Europe experienced another fin de siècle characterized by overwhelming material and institutional change and instability By historicizing the specific political social and economic conflicts at work within the notion of Romantic childhood the essayists in *Literature and the Child* show us how little these forces have changed over time and how enriching and empowering they can still be for children and their parents In the first section *Romanticism Continued and Contested* Alan Richardson and Mitzi Myers question the origins and ends of Romantic childhood In *Romantic Ironies Postmodern Texts* Dieter Petzold Richard Flynn and James McGavran argue that postmodern texts for both children and adults perpetuate the Romantic complexities of childhood Next in *The Commerce of Children's Books* Anne Lundin and Paula Connolly study the production and marketing of children's classics Finally in *Romantic Ideas in Cultural Confrontations* William Scheick and Teya Rosenberg investigate interactions of Romantic myths with those of other cultural systems

The Gnostic Bible Willis Barnstone, Marvin W. Meyer, 2006 The most comprehensive collection of gnostic literature ever published this volume is the result of a unique collaboration between a renowned poet translator and a leading scholar of early Christian texts *Studies in Manichaeism Literature and Art* Manfred Heuser, H. J. Klimkeit, 1997-12-31 This volume consists of two sections The first is a general analysis by Manfred Heuser of *The Manichaeism Myth According to Coptic Sources* The second is a collection of essays by Hans Joachim Klimkeit on various aspects of Manichaeism including Manichaeism symbolism and art

Essential Gnostic Scriptures Willis Barnstone, Marvin Meyer, 2010-12-28 The people we've come to call gnostics were passionate advocates of the view that salvation comes through knowledge and personal experience and their passion shines through in the remarkable body of writings they produced over a period of more than a millennium and a half Willis Barnstone and Marvin Meyer have created a translation that brings the gnostic voices to us from across the centuries with remarkable power and beauty beginning with texts from the earliest years of Christianity including material from the Nag Hammadi library and continuing all the way up to expressions of gnostic wisdom found within Islam and in the Cathar movement of the Middle Ages The twenty one texts included here serve as a compact introduction to Gnosticism and its principal ideas and they also provide an entrance to the pleasures of gnostic literature in general representing as they do the greatest masterpieces of that tradition

The Songs that Fought the War John Bush Jones, 2006 A lively social history of popular wartime songs

and how they helped America's home front morale

The Song Of The Pearl Wesley Stillwagon Sr, 2019-06-10 John Steinbeck's *The Pearl* includes many references to songs that accompany the perceptions of a central character named Kino. It is important to note that the writer used the term song and as such implied something greater than a single musical note, chord, or phrase. He was referring to a streaming complex of feeling, tones, a melody, or song. Such streaming influences from the unconscious may impact an individual's perception, judgment, decisions, and conclusions often before they are able to explain their reaction. While many can relate to such experiences, understanding the source and purpose could enrich the experience. How the unconsciously inspired influences impact us depends upon our individual adult maturity, functional style, and attitude. An example of such influences are regularly employed in film and stage plays. To unify an influence among individual audience members, a well-developed film or stage play's musical score serves to bring together audience feeling tones to support a scene. It may dramatically increase the viewing experience across a wide range of individual styles. This essay introduces the conceptual tools to build an understanding and appreciation for such influences. The essay could be used as supporting evidence for greater funding for the arts in education.

The Song of Songs in the Middle Ages Ann W. Astell, 2018-10-18 Included among the sacred books of Judaism and Christianity alike, the Song of Songs does not mention God at all. On the surface, it is a lyrical exchange between unnamed lovers who articulate the range of emotions associated with sexual love. Ann W. Astell here examines medieval reader response, both interpretive and imitative, to the Song. Disputing the common view that the literal meaning of Canticles had no value for medieval readers, Astell points to twelfth-century commentaries on the Song as well as an array of Middle English works as evidence that the Song's sensuous imagery played an essential part in its tropological appeal. Emphasizing the ways in which a complex fusion of the Song's carnal and spiritual meanings appealed rhetorically to a variety of audiences, Astell first considers interpretive responses to Canticles, contrasting Origen's dialectical exposition with the affective commentaries of the twelfth-century ecclesiastical Marian and mystical. According to Astell, these commentaries present Canticles as a marriage song that mirrors a series of analogous marriages, both within the individual and between human and divine persons. Astell describes interpretations of the Song of Songs in terms of the various feminine archetypes that the expositors emphasize: the Virgin Mother, the Hetaira, or the Medium. She maintains that the commentators encourage the auditor's identification with the figure of the Bride so as to evoke and direct the feminine affective powers of the soul. Turning to literature influenced by the Song, she then discusses how the reading process is reinscribed in selected works in Middle English, including Richard Rolle's autobiographical writings, Pearl, religious love lyrics, and cycle dramas. *The Song of Songs in the Middle Ages* provides an innovative model of reader response that opens the way for a deeper understanding of the literary influence of biblical texts.
