

Sonnet 116

by William Shakespeare

1st
quatrain

Let me not to the marriage of true minds
Admit impediments. Love is not love
Which alters when it alteration finds,
Or bends with the remover to remove.

line 5

2nd
quatrain

O, no! it is an ever-fixed mark,
That looks on tempests and is never shaken;
It is the star to every wand'ring bark,
Whose worth's unknown, although his height be taken.

line 10

3rd
quatrain

Love's not Time's fool, though rosy lips and cheeks
Within his bending sickle's compass come;
Love alters not with his brief hours and weeks,
But bears it out even to the edge of doom.

Rhyming
couplet

If this be error, and upon me prov'd,
I never writ, nor no man ever lov'd.

Sensitive Witnesses Kristin M. Girten, 2024-02-13 Kristin M Girten tells a new story of feminist knowledge making in the Enlightenment era by exploring the British female philosophers who asserted their authority through the celebration of profoundly embodied observations experiences and experiments This book explores the feminist materialist practice of sensitive witnessing establishing an alternate history of the emergence of the scientific method in the eighteenth century Francis Bacon and other male natural philosophers regularly downplayed the embodied nature of their observations They presented themselves as modest witnesses detached from their environment and entitled to the domination and exploitation of it In contrast the author philosophers that Girten takes up asserted themselves as intimately entangled with matter boldly embracing their perceived close association with the material world as women Girten shows how Lucy Hutchinson Margaret Cavendish Aphra Behn Eliza Haywood and Charlotte Smith took inspiration from materialist principles to challenge widely accepted modest conventions for practicing and communicating philosophy Forerunners of the feminist materialism of today these thinkers recognized the kinship of human and nonhuman nature and suggested a more accessible inclusive version of science Girten persuasively argues that our understanding of Enlightenment thought must take into account these sensitive witnesses visions of an alternative scientific method informed by profound closeness with the natural world

Wordsworth's Poetry, 1815-1845 Tim Fulford,2019-02-08 The later poetry of William Wordsworth popular in his lifetime and influential on the Victorians has with a few exceptions received little attention from contemporary literary critics In Wordsworth s Poetry 1815 1845 Tim Fulford argues that the later work reveals a mature poet far more varied and surprising than is often acknowledged Examining the most characteristic poems in their historical contexts he shows Wordsworth probing the experiences and perspectives of later life and innovating formally and stylistically

He demonstrates how Wordsworth modified his writing in light of conversations with younger poets and learned to acknowledge his debt to women in ways he could not as a young man The older Wordsworth emerges in Fulford's depiction as a love poet of companionate tenderness rather than passionate lament He also appears as a political poet bitter at capitalist exploitation and at a society in which vanity is rewarded while poverty is blamed Most notably he stands out as a history poet more probing and more clear sighted than any of his time in his understanding of the responsibilities and temptations of all who try to memorialize the past

The Forms of Michael Field LeeAnne M. Richardson, 2021-11-08

Michael Field the poetic identity created by Katharine Bradley 1846-1914 and her niece Edith Cooper 1862-1913 ceaselessly experimented with forms of identity and forms of literary expression The Forms of Michael Field argues that their modes of self creation are analogous to their poetic creations and that exploring them in tandem is the best way to understand Michael Field's cultural and literary importance Michael Field deploys a different form in each volume of their lyric poetry translations of Sappho ekphrasis songs sonnets and devotional verse They also appropriate and revise the dramatic genres of verse tragedy and the masque Each of these experiments in form enable Michael Field to differently address the cultural questions that beset late Victorian women writers Drawing on the insights of new lyric studies and new formalism this book analyzes Michael Field's continual quest for the aesthetic forms that best express their evolving ideas about identity and sexuality gender and sacrifice lyric voice and authority

The Limits of Familiarity Lindsey Eckert, 2022-06-17

What did Wordsworth wear and where did he walk Who was Byron's new mistress and how did his marriage fare Answers sometimes accurate sometimes not were tantalizingly at the ready in the Romantic era when confessional poetry romances clef personal essays and gossip columns offered readers exceptional access to well known authors But at what point did familiarity become overfamiliarity Widely recognized as a social virtue familiarity a feeling of emotional closeness or comforting predictability could also be dangerous vulgar or boring In The Limits of Familiarity Eckert persuasively argues that such concerns shaped literary production in the Romantic period Bringing together reception studies celebrity studies and literary history to reveal how anxieties about familiarity shaped both Romanticism and conceptions of authorship this book encourages us to reflect in our own fraught historical moment on the distinction between telling all and telling all too much

The World of

Shakespeare's Sonnets Robert Matz, 2014-07-15 Of Shakespeare's sonnets we know the crystalline meter exquisite diction and exhilarating surprise of the turn in the final couplet By contrast we know very little of their subjects and motives This book does not approach the sonnets as Shakespearean autobiography but instead delineates the customs that shaped the poet's world and thus his sonnets It argues for understanding them as brilliant edgy expressions of the equally brilliant edgy culture of the English Renaissance
