WE THE PEOPLE, SERVANTS OF DECEPTION Christopher M. Dawson,2012-05-14 Using the principles and tools of sociology presented in his university course Chris Dawson challenges the reader to reconsider the social reality of our society This book exposes inconsistencies and deceptions in the conventional portrayal of America s experiment in democracy His provocative social commentary explores the role of our military the culture of fear strategies in the war on terror the excesses of corporate power and our misconceptions about crime He speaks of social inequality social and racial group divisions and offers unconventional views about education medicine universal healthcare and the origins of religion The doubts he raises will merit your serious reflection *We the People* ,2020 Introduces the history and principles of constitutional democracy **Catalog of Copyright Entries. LaSpina,2014-04-04 Is the emerging digital multimedia culture of today transforming the textbook or forever displacing it As new media of transmission enter the classroom the traditional textbook is now caught up in a dialogue reshaping the textual boundaries of the book and with it the traditional modes of cognition and learning which are bound more to language than to visual form Most of the important work in the past two decades in the field of curriculum has focused on the culture of the textbook A rich literature has evolved around textbooks as the traditional object of instructional activity This volume is an important contribution to this literature which focuses on the actual making of a textbook This design process serves as a metaphor that suggests new paradigms of learning and instruction in which text content is but one component in a multidimensional information space The Visual Turn is an exploration along the border of this new learning space transforming the traditional center of instruction in the classroom **The Routledge Course in Modern Mandarin Chinese Workbook Level 2 (Simplified)**
