Military Review ,2017 Shaping the Digital Dissertation Virginia Kuhn,Anke Finger,2021-05-04 This volume is a timely intervention that not only helps demystify the idea of a digital dissertation for students and their advisors but will be broadly applicable to the work of librarians administrators and anyone else concerned with the future of graduate study in the humanities and digital scholarly publishing Roxanne Shirazi The City University of New York Digital dissertations have been a part of academic research for years now yet there are still many questions surrounding their processes Are interactive dissertations significantly different from their paper based counterparts What are the effects of digital projects on doctoral education How does one choose and defend a digital dissertation This book explores the wider implications of digital scholarship across institutional geographic and disciplinary divides The volume is arranged in two sections the first written by senior scholars addresses conceptual concerns regarding the direction and assessment of digital dissertations in the broader context of doctoral education The second section consists of case studies by PhD students whose research resulted in a natively digital dissertation that they have successfully defended These early career researchers have been selected to represent a range of disciplines and institutions Despite the profound effect of incorporated digital tools on dissertations the literature concerning them is limited This volume aims to provide a fresh up to date view on the digital dissertation considering the newest technological advances It is especially relevant in the European context where digital dissertations mostly in arts based research are more popular Shaping the Digital Dissertation aims to provide insights precedents and best practices to graduate students doctoral advisors institutional agents and dissertation committees As digital dissertations have a potential impact on the state of research as a whole this edited collection will be a useful resource for the wider academic community and anyone interested in the future of doctoral studies *Report to Congress of the U.S.-China Economic and Security Review Commission* U.S.-China Economic and Security Review Commission,2014 *Time to Think* Hannah Barnes,2024-07-02 SHORTLISTED FOR THE BAILLIE GIFFORD PRIZE FOR NON FICTION SHORTLISTED FOR THE ORWELL PRIZE FOR POLITICAL WRITING This is what journalism is for Observer Time to Think goes behind the headlines to reveal the truth about the collapse of the world s largest gender service for children Are we hurting children That s the core question at the heart of Time to Think which exposes the truth about the rise and fall of the United Kingdom s flagship gender identity clinic for children Answering in the affirmative it exposes how ideology triumphed over evidence within this part of the healthcare system In the process child safeguarding was overlooked and pediatric patients were medically harmed As investigative journalist Hannah Barnes reveals the Tavistock s Gender Identity Development Service GIDS was set up initially to provide talking therapies to young people who were questioning their gender identity But in a little over a decade it referred around two thousand children some as young as nine years old for medication to block their puberty In the same period with ever greater numbers of children in need of treatment the profile of the patients changed

from largely pre pubescent boys to mostly adolescent girls who were often contending with other medical and psychological difficulties GIDS was shut down by English health authorities in March 2024 and new services will not be able to prescribe these profound medical interventions Yet GIDS's approach to treating children with gender identity distress was in fact more cautious than that observed in other countries including notably in the United States This urgent scrupulous and dramatic book explains how GIDS was the site of a serious medical scandal As this scandal continues to unfold and even accelerate within other institutions and across countries it is a gripping parable and disturbing cautionary tale for our times

Contemporary Chinese Novels in Translation since 1978 Yun Wu, 2024-10-14 This book aims to complement the traditional focus of translation studies which has primarily centered on translating English into other languages It presents a comprehensive analysis of the reverse translation trajectory exploring the movement of Chinese literature into the core English literary domain The book aims to explore the ideological and sociological dynamics that underlie the translation of contemporary Chinese novels This is achieved through an examination of the translation selection process translation paratexts and the roles of translation agents Case studies are employed to illustrate specific linguistic literary and cultural challenges within translation It dissects the cultural and literary implications of translating genres such as women's writing science fiction and Internet literature The argument presented is that the translation of peripheral literature is indispensable in shaping global literature Beyond its literary implications the book identifies the political significance inherent in such reverse translation endeavors It suggests that the translation of Chinese literature holds notable political interest for the Chinese government which aims to reshape China's image and bolster the nation's soft power through literary translation This work will be an essential read to students and scholars of translation studies comparative literature and Chinese studies

Great Circles Emily Rolfe Grosholz, 2018-11-13 This volume explores the interaction of poetry and mathematics by looking at analogies that link them The form that distinguishes poetry from prose has mathematical structure lifting language above the flow of time as do the thoughtful ways in which poets bring the infinite into relation with the finite The history of mathematics exhibits a dramatic narrative inspired by a kind of troping as metaphor opens metonymy and synecdoche elaborate and irony closes off or shifts the growth of mathematical knowledge The first part of the book is autobiographical following the author through her discovery of these analogies revealed by music architecture science fiction philosophy and the study of mathematics and poetry The second part focuses on geometry the circle and square launching us from Shakespeare to Housman from Euclid to Leibniz The third part explores the study of dynamics inertial motion and transcendental functions from Descartes to Newton and in 20th c poetry The final part contemplates infinity as it emerges in modern set theory and topology and in contemporary poems including narrative poems about modern cosmology **Web Information Systems and Technologies** Joaquim Filipe, José Cordeiro, 2011-08-03 This book contains the thoroughly refereed and revised best papers from the 6th International Conference on Web Information Systems and Technologies

WEBIST 2010 held in Valencia Spain in April 2010 organized by the Institute for Systems and Technologies of Information Control and Communication INSTICC in collaboration with ACM SIGMIS and co sponsored by the Workflow Management Coalition WPMC The 21 papers presented in this book were carefully reviewed and selected from 205 submissions The papers are grouped into four parts on Internet Technology Web Interfaces and Applications Society e Business and e Government and Web Intelligence

"Grace Abounds More": Balthasar's Eschatological Universalism in Dialogue Joshua R. Brotherton, 2023-12-04 The problem of eternal damnation is one that should trouble all believers and impels many to seek answers to fundamental questions outside of the Church For this reason theologians with a missionary heart of the last century or more from across the ecclesial spectrum have sought to refashion the gospel in our own estranged image In dialogue with one of the leading figures of this movement Joshua Brotherton tackles the question of the plausibility that all will be saved Sympathetic to their cause this volume seeks to revise the way in which they envision the reconciliation of divine love and moral evil
