Senate. Committee on Foreign Relations, 1986 *The Great War and America* Nancy Gentile Ford, 2008-02-28

The First World War marked a key turning point in America's involvement on the global stage. Isolationism fell, and America joined the ranks of the Great Powers. Civil-military relations faced new challenges as a result. Ford examines the multitude of changes that stemmed from America's first major overseas coalition war, including the new selective service process, mass mobilization of public opinion, training diverse soldiers, civil liberties, anti-war sentiment, and conscientious objectors, segregation, and warfare. Americans under British or French command, post-war issues of significance such as the Red Scare, and retraining during demobilization are also covered. Both the federal government and the military were expanding rapidly, both in terms of size and in terms of power, during this time. The new group of citizen soldiers, diverse in terms of class, religion, ethnicity, regional identity, education, and ideology, would provide training challenges. New government-military business relationships would experience failures and successes. Delicate relationships with allies would translate into diplomatic considerations and battlefield command concerns.

Kenya, Bridging Ethnic Divides Nderitu, Alice Wairimu, 2018-12-12

The National Cohesion and Integration Commission (NCIC) was set up to facilitate and promote equality of opportunity, good relations, harmony, and peaceful coexistence between persons of the different ethnic and racial communities of Kenya and to advise the Government on all aspects thereof after the violence that followed the December 2007 elections. In *Kenya: Bridging Ethnic Divides*, Alice Wairim Nderit looks behind the scenes at the NCIC's efforts to ensure peaceful coexistence. Such as working with elders mediating confidentially between political leaders.

at the highest levels and co founding and working as first Co Chair of Uwiano Platform for Peace a conflict prevention agency largely credited with leading efforts in ensuring peaceful processes during the 2010 Constitutional referendum and 2013 General elections The book tells of NCIC s efforts in grappling with the seemingly intractable problem of managing the negative consequence of ethnic differences on questions such as Why is Kenya so ethnically polarised Why is an ethnic group the key defining factor in Kenyan politics What hope is there for an inclusive Kenya The book shows that positive policies and intra and inter ethnic spaces can be used to counter negative influences that lead to fear exclusion and violence The diversity of Kenya s ethnicities and races need not be a pretext for conflict but a source of truly national identity It proves that dialogue on understanding differences and commonalities leads to improved relationships and understanding on societal dynamics This in turn contributes to preventing and transforming conflicts through appropriate inclusion policies identifying entry points for change as well as opportunities to tackle the norms and behaviours that underpin structural disparities
