These pictures are available online and with the English-Thai glossary. In the pictures, the two children are in class.

In their third year, I brought in a Thai storybook to read at 3:30 pm in class.

I invited Mike to tell me about it in our reading log. The children's group was excited. I did many Thai storybooks enjoying these stories. They had fun learning and it helped me through my teaching time. Mike said that was one of the things I did as a parent and would be teaching my children. They were all very happy with me. — (M), age 10, male and 4th grade in the reading log notebook. Call from a 4th grader about 10th grade and a teacher. I read 10th grade and 10th grade students together. 10th grade and 10th grade.

**Researching the History of Mathematics Education** Fulvia Furinghetti, Alexander Karp, 2017-12-04. This book offers insights into the history of mathematics education covering both the current state of the art of research and the methodology of the field. History of mathematics education is treated in the book as a part of social history. This book grew out of the presentations delivered at the International Congress on Mathematics Education in Hamburg. Modern development and growing internationalization of mathematics education made it clear that many urgent questions benefit from a historical approach. The chapters present viewpoints from the following countries: Belgium, Brazil, Cambodia, China, Cyprus, Germany, Iceland, Italy, the Netherlands, Russia, Spain, and Sweden. Each chapter represents significant directions of historical studies. The book is a valuable source for every historian of mathematics education and those interested in mathematics education and its development.
