economics which privilege observation over understanding she asserts her vision of humanomics which draws on the work of Bart Wilson Vernon Smith and most prominently Adam Smith She argues for an economics that uses a comprehensive understanding of human action beyond behaviorism McCloskey clearly articulates her points of contention with believers in imperfections from Samuelson to Stiglitz claiming that they have neglected scientific analysis in their haste to diagnose the ills of the system In an engaging and erudite manner she reaffirms the global successes of market tested betterment and calls for empirical investigation that advances from material incentives to an awareness of the human within historical and ethical frameworks Bettering Humanomics offers a critique of contemporary economics and a proposal for an economics as a better human science

Bullock, Pauline Henry-Tierney, 2023-05-19 This collection offers insights into the transnational and translingual implications of Simone de Beauvoir's *Le Deuxième Sexe* *The Second Sex* a text that has served as foundational for feminisms worldwide since its publication in 1949 Little scholarly attention has been devoted to how the original French language source text made its way into languages other than English This is a shocking omission given that many but by no means all other translations were based on the 1953 English translation by Howard M Parshley which has been widely criticized by Beauvoir scholars for its omissions and careless attention to its philosophical implications This volume seeks to fill this gap in scholarship with an innovative collection of essays that interrogate the ways that Beauvoir's essay has shifted in meaning and significance as it has travelled across the globe This volume brings together for the first

time scholars from Translation Studies Literary Studies and Philosophical Studies and over half of it is dedicated to non Western European engagements with *Le Deuxi me Sexe* including chapters on the Chinese Japanese Arabic Hungarian and Polish translations As such this collection will be essential to any scholar of Beauvoir s philosophy and its contributions to feminist discourses     A Grammar of the English Language Geo.
