State of the Nation Sakhela Buhlungu, 2007 *State of the Nation* South Africa 2007 offers 22 diverse angles on contemporary South Africa in one compelling and comprehensive collection The politics section focuses on the outcome of the 2006 local government elections and issues of service delivery The economy section examines the rapidly growing social welfare net the state of our public health systems and the topics of water and the environment heritage and tourism Violence against women prison reform the plight of South Africa's former guerrilla fighters transformation in South African rugby and the post apartheid role of the church all come under the spotlight in the society section The volume concludes with a look at trends in the continuing involvement of South African business on the African continent South Africa's part in the complex search for peace and stability in the Democratic Republic of Congo and the life of the vast Zimbabwean exile community in South Africa

State of the Nation, 2007 *ICTR 2018 International Conference on Tourism Research* Dr Minna Tunkkari-Eskelinen, JAMK University of Applied Science Jyväskylä, Finland, Dr Anne Törn-Laapio, JAMK University of Applied Science Jyväskylä, Finland, 2018-03-22 These proceedings represent the work of researchers participating in the International Conference on Tourism Research ICTR 2018 which is being hosted by JAMK University of Applied Sciences Jyväskylä Finland on 23-24 March 2018

Research for Educational Change Jill Adler, Anna Sfard, 2016-06-17 *Research for Educational Change* presents ways in which educational research can fulfil its commitments to educational practice Focussing its discussion within the context of mathematics education it argues that while research generated insights can have beneficial effects on learning and teaching the question of how these effects are to be generated and sustained is far from evident The question of how to turn research into educational improvement is discussed here in the context of learning and teaching hindered by poverty and social injustice In the first part of the book four teams of researchers use different methodologies while analysing the same corpus of data collected in a South African mathematics classroom In the second part each of these teams makes a specific proposal about what can be done and how so that its research generated insights have a tangible beneficial impact on what is happening in mathematical classrooms Combining two discourses that of researchers speaking to one another and that of researchers communicating their insights to those responsible for educational practice the book deals with the perennial question of communication between those who study educational processes and those who are directly responsible for teacher education educational research and classroom practices This book will be key reading for postgraduates researchers and academics in education and particularly in the areas of mathematics education education research teacher education and classroom practice It will also appeal to teacher educators practitioners and undergraduate students interested in educational research
