the challenges faced by the NWS are no less important than those of the pre MAR era The three key challenges are 1 Keeping Pace with accelerating scientific and technological advancement 2 Meeting Expanding and Evolving User Needs in an increasingly information centric society and 3 Partnering with an Increasingly Capable Enterprise that has grown considerably since the time of the MAR Weather Services for the Nation presents three main recommendations for responding to these challenges These recommendations will help the NWS address these challenges making it more agile and effective This will put it on a path to becoming second to none at integrating advances in science and technology into its operations and at meeting user needs leading in some areas and keeping pace in others It will have the highest quality core capabilities among national weather services It will have a more agile organizational structure and workforce that allow it to directly or indirectly reach more end users save more lives and help more businesses And it will have leveraged these capabilities through the broader enterprise This approach will make possible societal benefits beyond what the NWS budget alone allows
