

Website Review. Paper Example Essay

Due to the continuous technological improvements, most organizations and institutions have been forced to create websites that are used to communicate or pass a particular message to a specific population. A website is considered to be a collection of web pages that are usually identified mainly by a common or specific domain name and published by at least one website server. Websites are considered to be of great benefit, particularly in the healthcare field, due to their tremendous effort to address the various diseases and disorders affecting the population, such as the attention hyperactive activity disorder. These websites tend to provide interesting and valuable information and deep insight into the topic. For instance, the website tends to explain the condition, its cause, diagnosis, and treatment. Although most websites have taken the initiative of talking about this condition, it is usually very hard to find a website that is providing a proper insight into the topic and also using other apparatus such as collaborating with other organizations to improve the wellbeing of the affected individuals. This paper intends to review a website that focuses on diseases and disorders such as attention hyperactivity disorder and identify criteria that the general public considered acceptable.

Criteria That the Public Would See as Acceptable For a Website That Talks About Diseases and Disorders.

There are numerous websites that usually focus their ideas and agendas on diseases and disorders affecting the population, such as attention hyperactivity disorder. These websites usually try to educate a large number of people who have been either affected or at risk of being affected by the attention hyperactivity disorder. However, for a website to gain support or have a wide number of followers who are willing to learn about the attention hyperactivity disorder, the website is usually required to meet a set of criteria. The set of criteria that is usually considered acceptable by the population for such websites include, first, the website should provide current information concerning the condition. Most website tend to take a lot of time before they update the information that they intend to pass to the population. This makes the information to be outdated and irrelevant to the people. The websites should update the statistical and the prevalence of the condition at least after every six months or after every one year (Gidron et al., 2020). The aim of updating this information is to ensure that the population is getting valuable information that they can depend on.

Secondly, the objectivity of the websites should not be closed; instead, it should be broad. The information being communicated on the website should not be only from the organization or institution; instead, it should include information from other vital sources that communicate a similar message. Such information helps the targeted individual to know where they can get alternative treatment or where they can get similar services. The website owners are therefore required to collaborate or partner with other organizations or institutions that they share similar goals or objectives in order to make it easy to advertise their information (Kofler et al., 2020, p56). Thirdly, the information that is presented on the website should be authored by a large team or group of health professionals. Depending on a huge team usually helps the organization to come up with a clear and conclusive message. On the other hand, in case the organization allows only one person to author the information. The website followers may not grasp the intended message.

Website Review Paper

Jay Liebowitz

Website Review Paper:

Handbook of Research on Web 2.0, 3.0, and X.0: Technologies, Business, and Social Applications Murugesan, San, 2009-11-30 This book provides a comprehensive reference source on next generation Web technologies and their applications Provided by publisher

The Science of Web Surveys Roger Tourangeau, Frederick Conrad, Mick Couper, 2013-05-09 In this volume the authors provide a comprehensive summary of the literature on this method of data collection that is rapidly growing in popularity The book includes new syntheses of the authors work and other important research on Web surveys including a meta analysis of studies that compare reports on sensitive topics in Web surveys with reports collected in other modes of data collection

Poetry Translating as Expert Action Francis R. Jones, 2011 Poetry is a highly valued form of human expression and poems are challenging texts to translate For both reasons people willingly work long and hard to translate them for little pay but potentially high personal satisfaction This book shows how experienced poetry translators translate poems and bring them to readers and how they not only shape new poems but also help communicate images of the source culture It uses cognitive and sociological translation studies methods to analyse real data most of it from two contrasting source countries the Netherlands and Bosnia Case studies including think aloud studies analyse how translators translate poems In interviews translators explain why and how they translate And a 17 year survey of a country s poetry translation output explores how translators work within networks of other people and texts publishing teams fellow translators source culture enthusiasts and translation readers and critics In mapping the whole sweep of poetry translators action from micro cognitive to macro social this book gives the first translation studies overview of poetry translating since the 1970s

Service-Oriented Computing - ICSOC Workshops 2012 Aditya Ghose, Huibiao Zhu, Qi Yu, Alex Delis, Quan Z. Sheng, Olivier Perrin, Jianmin Wang, Yan Wang, 2013-04-11 This book constitutes the thoroughly refereed proceedings of the 2012 ICSOC Workshops consisting of 6 scientific satellite events organized in 3 main tracks including workshop track ASC DISA PAASC SCEB SeMaPS and WESOA 2012 PhD symposium track demonstration track held in conjunction with the 10th International Conference on Service Oriented Computing ICSOC in Shanghai China November 2012 The 53 revised papers presents a wide range of topics that fall into the general area of service computing such as business process management distributed systems computer networks wireless and mobile computing grid computing networking service science management science and software engineering

A Guide to Publishing for Academics Jay Liebowitz, 2015-04-08 Most academics still wrestle with the publish or perish phenomenon Based on Dr Liebowitz s 25 years serving as the editor in chief of a leading international journal along with insights from some of the most knowledgeable journal editors this book shares key lessons learned to help new professors doctoral students and practitioner scholars

literature in the health sciences *Handbook of Research on Web Log Analysis* Jansen, Bernard J., Spink, Amanda, Taksa, Isak, 2008-10-31 This book reflects on the multifaceted themes of Web use and presents various approaches to log analysis
Provided by publisher **Beyond open access: visions for open evaluation of scientific papers by post-publication peer review** Nikolaus Kriegeskorte, Diana Deca, A scientific publication system needs to provide two basic services access and evaluation The traditional publication system restricts the access to papers by requiring payment and it restricts the evaluation of papers by relying on just 2-4 pre publication peer reviews and by keeping the reviews secret As a result the current system suffers from a lack of quality and transparency of the peer review evaluation process and the only immediately available indication of a new paper's quality is the prestige of the journal it appeared in Open access is now widely accepted as desirable and is slowly beginning to become a reality However the second essential element evaluation has received less attention Open evaluation an ongoing post publication process of transparent peer review and rating of papers promises to address the problems of the current system However it is unclear how exactly such a system should be designed The evaluation system steers the attention of the scientific community and thus the very course of science For better or worse the most visible papers determine the direction of each field and guide funding and public policy decisions Evaluation therefore is at the heart of the entire endeavor of science As the number of scientific publications explodes evaluation and selection will only gain importance A grand challenge of our time therefore is to design the future system by which we evaluate papers and decide which ones deserve broad attention So far scientists have left the design of the evaluation process to journals and publishing companies However the steering mechanism of science should be designed by scientists The cognitive computational and brain sciences are best prepared to take on this task which will involve social and psychological considerations software design and modeling of the network of scientific papers and their interrelationships This Research Topic in *Frontiers in Computational Neuroscience* collects visions for a future system of open evaluation Because critical arguments about the current system abound these papers will focus on constructive ideas and comprehensive designs for open evaluation systems Design decisions include Should the reviews and ratings be entirely transparent or should some aspects be kept secret Should other information such as paper downloads be included in the evaluation How can scientific objectivity be strengthened and political motivations weakened in the future system Should the system include signed and authenticated reviews and ratings Should the evaluation be an ongoing process such that promising papers are more deeply evaluated How can we bring science and statistics to the evaluation process e.g. should rating averages come with error bars How should the evaluative information about each paper e.g. peer ratings be combined to prioritize the literature Should different individuals and organizations be able to define their own evaluation formulae e.g. weighting ratings according to different criteria How can we efficiently transition toward the future system Ideally the future system will derive its authority from a scientific literature on community based open evaluation We hope that these papers

will provide a starting point *How to Perform a Systematic Literature Review* Edward Purssell, Niall McCrae, 2024-12-11

This new edition is an authoritative and accessible textbook to an activity that is often found overwhelming. The systematic review is a rigorous method of collating and synthesizing evidence from multiple studies producing a whole greater than the sum of parts. The authors steer readers on a logical path through the process taking account of the different needs of researchers, students and practitioners in health and social care. Practical guidance is provided on the fundamentals of systematic reviewing and also on advanced techniques such as meta analysis. Examples are given throughout with a succinct glossary to support the text. This new edition updates the first edition by considering a range of new and emerging issues in the systematic review process. In particular, the need for evidence to be systematically appraised in a timely manner, particularly during public health emergencies and when urgent patient care issues are being considered. The balance between speed and comprehensiveness. New and developing areas of interest such as living reviews and rapid reviews, both of which increased during Covid 19. Advances in methodologies and in particular meta analysis methods. The introduction of AI and other automated processes of data management. This up to date accessible textbook will satisfy the needs of students, practitioners and educators in the sphere of health and social care. The authors will advise some freely available or inexpensive open source access resources such as PubMed R and Zotero to help students how to perform a systemic review and to see how this informs the guideline and decision making process.

SOCRATES Sara Setayesh, Muhammad Yar Tanvir, Dr Ali Usman Saleem, Maftouni Nadia, Mahmoud Nuri, Smrutipriya Pattnaik, C Upendra, Lidija Kovacheva, 2018-08-23

This issue of SOCRATES has been divided into two sections. The first section of this issue is English Literature. The first paper of this section has been authored by Sara Setayesh. This paper reviews *Blasted*, the first play by the British author Sarah Kane. The paper analyses the Ian and Cate's psychological behavior and their romantic relationship portrayed in the play as important implications for psychoanalytic criticism. The second paper of this section has been authored by Muhammad Yar Tanvir and Dr Ali Usman Saleem. It evaluates the power, privilege or right enjoyed by the men in Pakistani Patriarchal society as reflected in *Attar of Roses and Other Stories of Pakistan*, a collection by Tahira Naqvi. The objective of this paper is to pinpoint the social and political position of patriarchal society through which woman subjugation by men becomes a power, a privilege or a right to be exercised. Radical Feminism will serve as a theoretical and conceptual framework for the apt exploration of the problematic. The second section of this issue is Philosophy. The first paper of this section has been authored by Maftouni Nadia and Mahmoud Nuri. It analyses the Farabi's philosophy of utopia and concluded that the public is not used to implement their rational faculty and they cannot perceive the rational happiness directly. So the rational happiness should be presented to their imagination and thus the artist of the utopia makes images of the rational happiness using sensible and imaginary forms. The second paper of this section has been authored by Smrutipriya Pattnaik and C Upendra. The paper critically addresses the fall narrative of the narrative of the failure of the communist experiment. It claims that if the idea of

return to socialism makes no sense equally is senseless the triumphalism debate of liberal capitalism The third paper of this section has been authored by Lidija Kovacheva This paper provides a comparative interpretation of the Ancient Greek image of Hermes as a mythological figure with the image of Archangel Michael as a highly revered Orthodox saint in modern Macedonian society The goal of this research is to show the similarities and the differences between these two characters and how these images are understood today in modern society

Developing Materials for Innovative Teaching and Sustainable Learning

Andrzej Cirocki,Raichle Farrelly,Taylor Sapp,2024-10-30 This volume features current innovative and effective ways of developing instructional materials for diverse English Language Teaching ELT contexts It is divided into four sections each featuring pedagogical materials designed for specific groups of learners The sections focus on materials for general English ESP and EAP CLIL and ELT teacher education courses The chapters written by experienced educators from around the world are highly practical and detail the process of designing materials for innovative and sustainable language education The contributors reflect on their own practice describe the materials design process explain the guiding principles and connect the design process with the local context and educational policies They also offer practical tips to inspire classroom practitioners to create their own materials promoting innovative teaching and sustainable learning Ultimately their chapters aim to encourage a world where teaching involves creativity and adaptability leading to transformative learning for both teachers and learners

Accountability Mechanism Policy 2012 Asian

Development Bank,2012-03-01 At the 43rd Annual Meeting of the Board of Governors of the Asian Development Bank ADB held in Tashkent Uzbekistan in May 2010 the President announced a joint Board and Management review of the Accountability Mechanism This paper gives the summary of the review in which the main objective was to examine the scope for improvements in the Accountability Mechanism The Accountability Mechanism provides a forum where people adversely affected by ADB assisted projects can voice and seek solutions to their problems and report alleged noncompliance of ADB s operational policies and procedures It consists of two separate but complementary functions consultation phase and compliance review phase

Dark Matter And Cosmic Web Story (Second Edition) Jaan Einasto,2024-04-29

The concepts of dark matter and the cosmic web are some of the most significant developments in cosmology in the past century They have decisively changed the classical cosmological paradigm which was first elaborated upon during the first half of the 20th century but ran into serious problems in the second half Today they are integral parts of modern cosmology which explains everything from the Big Bang to inflation to the large scale structure of the Universe Dark Matter and Cosmic Web

Story describes the contributions that led to a paradigm shift from the Eastern point of view. It describes the problems with the classical view, the attempts to solve them, the difficulties encountered by those solutions, and the conferences where the merits of the new concepts were debated. Amidst the science, the story of scientific work in a small country occupied by the Soviet Union and the tumultuous events that led to its breakup are detailed as well. The development of cosmology has often been treated as a West-East conflict between the American school led by Jim Peebles in Princeton and the Soviet team led by Yakov Zel'dovich in Moscow. Actually, the development of ideas was broader, and a certain role was played by the Tartu team. The Tartu cosmology school was founded by Ernst Pikel and has its own traditions and attitude to science. In the new edition of the book, the interplay between three cosmology schools is written in more detail. The recent development of dark matter and cosmic web studies is described as well as the evolution of global properties of the cosmic web. This book is accompanied by a website which contains additional material, copies of the originals of some crucial papers, astronomical movies, and movies which showcase the private life of the author. In this second edition, two chapters on the statistical description of the cosmic web and its development were added, as well as a chapter on the sociology of science. To keep the length of this book reasonable, a lot of reorganisation of the text has been done as well.

Using Research in Nursing Alan Gillies, 2002. If you think that research is difficult and remote from everyday practice, then try this book as an antidote. *Using Research in Nursing* covers 20 key topics at the heart of the research agenda in today's NHS. Based on the author's innovative *Using Research in Primary Care*, a workbook for health professionals, this book has been specially adapted to be entirely relevant to nurses and other professionals allied to nursing, addressing clinical effectiveness and clinical governance within the NHS. Icons throughout the book guide you towards these relevant online resources, which include documents and *Using Research in Primary Care*. Alan Gillies, 2002. If you think that research is necessarily esoteric, difficult, and remote from primary care, then try this book as an antidote. It is designed as a workbook and covers 20 topics at the heart of the research agenda in today's NHS. Each topic has its own chapter and is supported by online resources on the website. Icons throughout the book guide you towards these relevant online resources, which include documents, useful links, and downloadable templates. At the end of each chapter, there are questions to think about, practical activities, and key points to consolidate the information covered. The book describes detailed and comprehensive methods for quantitative and qualitative research and data analysis and is useful and practical reading for all members of the primary care team, including general practitioners and clinical governance staff.

WSN and IoT Shalli Rani, Ashu Taneja, 2024-04-26. Nowadays, all of us are connected through a large number of sensor nodes, smart devices, and wireless terminals. For these Internet of Things (IoT) devices to operate seamlessly, the Wireless Sensor Network (WSN) needs to be robust to support huge volumes of data for information exchange, resource optimization, and energy efficiency. This book provides in-depth information about the emerging paradigms of IoT and WSN in new communication scenarios for energy-efficient and reliable information exchange between a large number of sensors.

nodes and applications WSN and IoT An Integrated Approach for Smart Applications discusses how the integration of IoT and WSN enables an efficient communication flow between sensor nodes and wireless terminals and covers the role of machine learning ML artificial intelligence AI deep learning DL and blockchain technologies which give way to intelligent networks This book presents how technological advancement is beneficial for real time applications involving a massive number of devices and discusses how the network carries huge amounts of data allowing information to be communicated over the Internet Intelligent transportation involving connected vehicles and roadside units is highlighted to show how a reality created through the intelligent integration of IoT and WSN is possible Convergence is discussed and its use in smart healthcare where only through the intelligent connection of devices can patients be treated or monitored remotely for telemedicine or telesurgery applications This book also looks at how sustainable development is achieved by the resource control mechanism enabling energy efficient communication A wide range of communication paradigms related to smart cities which includes smart healthcare smart transportation smart homes and intelligent data processing are covered in the book It is aimed at academicians researchers advanced level students and engineers who are interested in the advancements of IoT and WSN for various applications in smart cities *AUUGN* ,1996-02 **Time to Think** Hannah Barnes,2023-02-23 SHORTLISTED FOR THE BAILLIE GIFFORD PRIZE FOR NON FICTION SHORTLISTED FOR THE ORWELL PRIZE FOR POLITICAL WRITING This is what journalism is for Observer Time to Think goes behind the headlines to reveal the truth about the NHS s flagship gender service for children The Tavistock s Gender Identity Development Service GIDS was set up initially to provide talking therapies to young people who were questioning their gender identity But in the last decade GIDS referred around two thousand children some as young as nine years old for medication to block their puberty In the same period the number of referrals exploded and the profile of the patients changed from largely pre pubescent boys to mostly adolescent girls who were often contending with other difficulties Was there enough clinical evidence to justify such profound medical interventions This urgent scrupulous and dramatic book explains how GIDS has been the site of a serious medical scandal in which ideological concerns took priority over clinical practice It is a disturbing and gripping parable for our times **What is e-book?** Nicolae Sfetcu,2014-05-10 The e book guide for publishers how to publish EPUB format ebook readers and suppliers An electronic book also e book ebook electronic book digital book is a book length publication in digital form consisting of text images or both and produced on published through and readable on computers or other electronic devices An e book can be purchased borrowed downloaded and used immediately whereas when one buys or borrows a book one must go to a bookshop a home library or public library during limited hours or wait for a delivery Electronic publishing or ePublishing includes the digital publication of e books and electronic articles and the development of digital libraries and catalogues EPUB short for electronic publication alternatively capitalized as ePub ePUB EPub or epub with EPUB preferred by the vendor is a free and open e book standard by the International Digital Publishing Forum IDPF

Self publishing is the publication of any book or other media by the author of the work without the involvement of an established third party publisher One of the greatest benefits brought about by ebooks software is the ability for anyone to create professional ebooks without having to fork out thousands of dollars to design and publish a book People can easily become authors overnight and earn income from selling online ebooks

Whispering the Strategies of Language: An Emotional Quest through **Website Review Paper**

In a digitally-driven earth wherever displays reign supreme and quick transmission drowns out the subtleties of language, the profound techniques and emotional nuances concealed within words often move unheard. Yet, located within the pages of **Website Review Paper** a fascinating fictional value pulsing with natural feelings, lies a fantastic journey waiting to be undertaken. Published by a skilled wordsmith, this enchanting opus attracts viewers on an introspective trip, gently unraveling the veiled truths and profound influence resonating within ab muscles material of every word. Within the mental depths of this moving evaluation, we can embark upon a sincere exploration of the book is primary subjects, dissect its fascinating publishing fashion, and fail to the strong resonance it evokes strong within the recesses of readers hearts.
