Preservation, 2009 **Black and Catholic in Savannah, Georgia** Gary W. McDonogh, 1993 In this unique ethnography of urban southern Catholicism, one of the few substantial studies of modern African American Catholics since the 1920s, Gary W. McDonogh employs a decade of anthropological and historical research to explore the contradictions and survival of black and Catholic parishes in Savannah. Given the disfranchisement of African Americans in the South as well as nativist responses to Catholics among both blacks and whites, those who are black and Catholic in Savannah constitute a double minority whose lives McDonogh explores by examining the interaction of community, church, and individual. A city divided for two centuries by conflicts over culture, class, and race, Savannah is permeated by ambiguous identities that often end up before the altar. Religion thus serves as a cultural language through which urban life can be observed as well as a system of belief and identity shared by blacks and Catholics. This multidisciplinary study links ethnography to wider debates on symbolism, gender, class, and cultural power. The vivid voices, memories, ritual, and social acts and observations of Savannah provide the basis for comparative insights and theoretical generalizations on communities within the United States and on a broad range of urban and religious issues.

Fear: An American History Willie Turner, 2022-08-30 History is the foundation of all great societies. Willie authored this book to explore why, throughout world and specifically American history, the seventeenth, eighteenth, and nineteenth-century writers took upon themselves to manipulate or rewrite history in their image. His book is written to correct dates, times, and events that were changed, kept hidden, or forgotten. Willie has uncovered some hidden history that would explain why the world has entered its end time. He learned how because of fear, America's foundation is built on a bed of sand, not solid rocks. Sand that is slowly being washed away. He exposes the secrets as to how few people have caused so many to struggle for their mere existence on earth, how religion became the cornerstone for slavery throughout the world. This book explains how and why ignorance has caused so many divisions among the people in America and around the world, how a coup d'état in America's past caused majority of the people in America to become slaves struggling to survive in the richest society on earth, why slavery has always been a part of the fabric of America starting from so long ago, how politics and politicians are leading great nations down a road of destruction, and how greed and power has consumed so many people to worship money over God.
