Where Image Abides:

Seventy Images of Grace in the Epistles . . . Norma Cook Everist, 2015-07-07 How can faith speak directly to people's real lives How can conversation around Scripture make all the difference in the arenas of one's daily world People who have heard the Bible many times or for the first time want to know in the terms and images of their life situation When my world seems to be shaking all around me why doesn't it help to hear You are forgiven And further What can I say to someone who feels totally alienated from God Seventy Images of Grace in the Epistles will help people make connections and empower them for their ministries in daily life The book presents an interplay of stories of people's actual lives and Epistle images of grace Readers will begin to recognize the depth of the human predicament and the power of the gospel thereby becoming equipped for Christian discipleship and vocation not from duty or guilt but from freedom Guides for Engagement will help readers turn the book into a learning event

Illusory Abiding Natasha Heller, 2020-05-11 A groundbreaking monograph on Yuan dynasty Buddhism Illusory Abiding offers a cultural history of Buddhism through a case study of the eminent Chan master Zhongfeng Mingben Natasha Heller demonstrates that Mingben and other monks of his stature developed a range of cultural competencies through which they navigated social and intellectual relationships They mastered repertoires internal to their tradition for example guidelines for monastic life as well as those that allowed them to interact with broader elite audiences such as the ability to compose verses on plum blossoms These cultural exchanges took place within local religious and social networks and at the same time they comprised some of the very forces that formed these networks in the first place This monograph contributes to a more robust account of Chinese Buddhism in late imperial China and demonstrates the importance of situating monks as actors within broader sociocultural fields of practice and exchange

In Search of the Abiding City Ranjbar, Golrang, This research investigates how the urban landscape of Tehran shapes the narratives of Iranian female authors highlighting the intricate connections between gender identity and spatial dynamics This study focuses on Tehran to provide a deeper understanding of its role as Iran's political and cultural center By examining four key novels Negaran nabash by Mahsa Moheb ali Ehtemalan gom shodeh am by Sara Salar Natamami by Zahra Abdi and Az sheytan amukht va suzand by Farkhondeh Aqa i this research addresses a significant gap in Iranian scholarship concerning the depiction of urban environments in works by female writers Applying theoretical frameworks such as the concepts of the fl neuse the Right to the City and identity formation through narrative space the research illustrates how the urban context profoundly impacts the experiences of female characters The findings reveal that while Tehran presents numerous challenges and gender based obstacles it also serves as a vital arena for women to express their identities and resist traditional societal constraints This duality creates a complex relationship between female characters and their urban environment characterized by both confinement and empowerment Ultimately this study provides new insights into the gendered experiences in Iranian urban literature revealing how female authors navigate and

express both their challenges and sense of agency within Tehran's shifting sociopolitical landscape *Liquid Ecclesiology*
Pete Ward, 2017-06-06 In *Liquid Ecclesiology* Pete Ward explores the theological contours of the turn to ethnography in the study of the Christian Church. His approach rests on a theology of culture that holds in tension and paradox the expression of the Church and divine presence. This theological framework is then developed through an extended qualitative empirical case study examining the communicative practices of the contemporary evangelical Church. The case study examines how the evangelical Gospel through expression has become marginalised in the everyday life of communities being replaced by a new more individual and personalised theology seen in worship songs. The final section of the book returns to the debates around ethnographic forms of theology and the question of normativity. This book will be of interest to all those engaged in empirical and theological work as well as those researching the contemporary Church and evangelicalism *Perichoretic Salvation*
James D. Gifford, 2011-09-15 For two thousand years Christian theologians have struggled to explain the believer's union with Christ. What sort of union is it? How can it be fully described? This book is an attempt to join the conversation to explore exactly what it means to be in union with Christ. This book will argue that the believer's union with Christ can rightly be presented as a third type of perichoresis. Perichoresis is a word that describes the way the persons of the Trinity interrelate without losing their essential oneness nor without being absorbed into each other. In short, the doctrine of perichoresis preserves the unity and diversity within the Godhead. It is also used to describe the hypostatic union of the divine and human in Christ. In *Perichoretic Salvation* James Gifford argues that the union of the believer and Christ is a relationship of the same kind though of a third type. Arguing from a perspective that is rooted biblically, historically and theologically, the book will allow the union to be explained more fully than in the past while remaining within the bounds of what the church has taught over the centuries. It may prove to be a basis for understanding the work of Christ afresh for the twenty-first century.
