with easy access to the most current information on professional techniques and guidelines and organized to support a generalist practice perspective *Techniques and Guidelines for Social Work Practice* illustrates multiple ways in which both direct and indirect intervention activities are a part of the social worker's repertoire. Touching upon everything from cultural competence to macro practice the content of this text is so widely applicable it is an invaluable aid in making the transition to a professional career in social work and a staple of professional social work libraries. In a classroom it is ideal for use in advanced practice capstone and field work courses. Parts I and II summarize the essential foundation elements of social work practice while Parts III through V set out 157 clearly described techniques and guidelines that can be used by students and new practitioners. The latest edition includes many changes that make it just as essential as previous editions. Techniques deleted from prior editions due to space restrictions are now available at www.ablongman.com/sheafor7e. New techniques include guidelines for assessing small group functioning, family group conferencing and building mentoring relationships as well as addressing client concerns related to spirituality and religion and serving the client or community experiencing an emergency or disaster. Following the lessons of 9/11 new content is included to prepare social workers to deal with a client or community emergency. Information is included on Family group conferencing, a new approach based on the principles of restorative justice about which social workers should be knowledgeable. New guidelines for using mentoring relationships in which senior practitioners without direct administrative responsibilities support and nurture developing social workers are included in this edition along with new guidelines for assessing small group functioning as a means of strengthening subsequent intervention activities with groups. Chapter 14 now includes a straight forward description of techniques for conducting empirical direct practice evaluation with current illustrations based on students' applications of the most commonly used evaluation tools.

Client Assessment Stephen Palmer, Gladeana McMahon, 1997-03-18 This chunky little book is packed with interesting approaches to the currently fashionable area of client assessment. This is a book for any counsellor or counsellor trainee's shelf, a necessary reference for the sound professional. *Counselling News*. The comprehensive series of essays is a timely contribution. This book is about being professional and effective: a valuable multimodal life inventory for use with clients is provided. *Counselling: The Journal of The British Association for Counselling*. What information will help you assess the therapeutic needs of a client? Could you identify a suicidal client? How can you tell whether or not you are working with appropriate clients? Answering these and other questions this book sheds light on a crucial but often neglected area of counselling. The authors provide clear guidelines backed up by practice points which clarify the assessment, monitoring and evaluation of clients. The book adopts a broad approach transcending specific counselling theories and covering the main issues involved at key stages in the client counsellor relationship from the initial contact through monitoring of the therapeutic programme to ending the counselling process. Areas examined include assessing the best type of therapy for each client, identifying the client's therapeutic goals, history taking, referral and

evaluating goal achievement Gladeanna McMahon is presenter of the ITV programme Dial A Mum
