

The Ultimate Dishwasher Loading Guide

Dishwasher Safe Plastics

Put all plastic items up top to prevent warping.

Glasses and Mugs

Upper racks are designed specifically for cups. Be sure they are put in face down.

Bowls

Make sure bowls towards the back of the rack are facing the front while bowls placed towards the front are facing the back. This ensures the water can reach them.

Large Utensils

Lay your large serving spoons, spatulas, etc. flat on the top rack.

Large Serving or Casserole Dishes

When it comes to bigger items, try to put them on the perimeter where there is typically more space.

Plates

The bottom tines are specifically designed to maximize the number of plates you can clean at once. Also, be sure that your plates are all facing the same direction so they're cleaned properly.

Pots and Pans

Be sure to check that they are dishwasher safe. If they are, put them on the perimeter of the bottom rack.

Utensils

It may seem efficient to organize the same utensils in each compartment. But, this actually could prevent them from getting a proper clean, especially with spoons, because they can nest together.
