## **Whirlpool User Guide:**

The NexStar User's Guide Michael Swanson, 2012-12-06 Michael Swanson's online discussions with literally thousands of NexStar owners made it clear that there was a desperate need for a book such as this one that provides a complete detailed guide to buying using and maintaining NexStar telescopes. Although this book is highly comprehensive it is suitable for beginners there is a chapter on Astronomy Basics and experts alike. Celestron's NexStar telescopes were introduced in 1999 beginning with their first computer controlled go to model a 5 inch. More models appeared in quick succession and Celestron's new range made it one of the two dominant manufacturers of affordable go to telescopes. *A Buyer's and User's Guide to Astronomical Telescopes and Binoculars* James Mullaney, 2013-10-10 Amateur astronomers of all skill levels are always contemplating their next telescope and this book points the way to the most suitable instruments. Similarly those who are buying their first telescopes and these days not necessarily a low cost one will be able to compare and contrast different types and manufacturers. This exciting and revised new guide provides an extensive overview of binoculars and telescopes. It includes detailed up to date information on sources selection and use of virtually every major type brand and model on today's market a truly invaluable treasure trove of information and helpful advice for all amateur astronomers. Originally written in 2006 much of the first edition is inevitably now out of date as equipment advances and manufacturers come and go. This second edition not only updates all the existing sections of *A Buyer's and User's Guide to Astronomical Telescopes and Binoculars* but adds two new ones Astro imaging and Professional Amateur collaboration. Thanks to the rapid and amazing developments that have been made in digital cameras not those specialist cool chip astronomical cameras not even DSLRs but regular general purpose vacation cameras it is easily possible to image all sorts of astronomical objects and fields. Technical developments including the Internet have also made it possible for amateur astronomers to make a real contribution to science by working with professionals. Selecting the right device for a variety of purposes can be an overwhelming task in a market crowded with observing options but this comprehensive guide clarifies the process. Anyone planning to purchase binoculars or telescopes for astronomy whether as a first instrument or as an upgrade to the next level will find this book a treasure trove of information and advice. It also supplies the reader with many useful hints and tips on using astronomical telescopes or binoculars to get the best possible results from your purchase. *A User's Guide to Trade Marks and Passing Off* Nicholas Caddick, Ben Longstaff, 2015-01-01 *A User's Guide to Trade Marks and Passing Off* 4th edition focuses on the current law relating to the protection of registered trademarks and certain related rights including registered trade marks well known trade marks certification marks collective marks protected geographical origin indicators international conventions and Passing off. There is clear explanation of the underlying principles and concepts with a breakdown of procedural matters thereby helping to tie the different areas together. Includes the following case law Illustrative cases such as Lush Scrabble Starbucks Glee Club and Jack Wills Cadbury and what it means for registering

**The Vixen Star Book User Guide** James Chen,Adam Chen,2015-10-01 This book is for anyone who owns or is thinking of owning a Vixen Star Book Ten telescope mount or its predecessor A revolution in amateur astronomy has occurred in the past decade with the wide availability of high tech computer driven Go To telescopes Vixen Optics is leading the way by offering the Star Book Ten system with its unique star map graphics software The Star Book Ten is the latest version of computer telescope control using star map graphics as a user interface first introduced in the original Star Book first offered in 2003 The increasingly complicated nature of this software means that learning to optimize this program is not straightforward and yet the resulting views when all features are correctly deployed can be phenomenal After a short history of computerized Go To telescopes for the consumer amateur astronomer market Chen offers a treasury of technical information His advice tips and solutions aid the user in getting the most out of the Star Book Ten system in observing sessions

*User's Guide to Cryptography and Standards* Alexander W. Dent,Chris J. Mitchell,2005 With the scope and frequency of attacks on valuable corporate data growing enormously in recent years a solid understanding of cryptography is essential for anyone working in the computer network security field This timely book delivers the hands on knowledge you need offering comprehensive coverage on the latest and most important standardized cryptographic techniques to help you protect your data and computing resources to the fullest Rather than focusing on theory like other books on the market this unique resource describes cryptography from an end user perspective presenting in depth highly practical comparisons of standards and techniques

**A Buyer's and User's Guide to Astronomical Telescopes & Binoculars** James Mullaney,2007-05-26 Both beginning novice amateur astronomers at the level of Astronomy and Night Sky magazine readers as well as more advanced amateur astronomers level of Sky and Telescope will find this book invaluable and fascinating It includes detailed up to date information on sources selection and use of virtually every major type brand and model of such instruments on today s market The book also includes details on the latest released telescope lines e g the 10 12 14 and 16 inch aperture models of the Meade LX R series As a former editor for Sky Telescope Astronomy and Star Sky magazines the author is the ideal person to write this book

A User's Guide to the Meade LXD55 and LXD75 Telescopes Martin Peston,2010-04-28 I have owned telescopes for over 25 years since I was a young lad I purchased an LXD55 AR 6 Refractor in 2002 and was one of the first to own one in the UK I am also a proud

owner of an LXD75 SC 8 Armed with these two very different telescopes I have spent many hours searching the skies for interesting objects using Meade's Autostar Goto facility My motivation to write a book about the LXD Goto telescope series first came from comments about an LXD55 AR 6 Refractor review that was published on the LXD55 com website From then on I have had regular emails from people asking technical questions about the telescope and which model is best suited for them Whilst attending Star parties in the UK I found that many LXD owners would struggle to use them even at a basic level especially if they have never owned or used an equatorially mounted Goto telescope before Since the first LXD55 models came out in early 2002 owners have struggled to find useful information to help them use the telescopes to the best advantage There have been mixed reactions about its quality and performance Hence this book is directed towards those who are new to Goto and the LXD telescope
