Multilingual Classrooms for Young Children in the UK Jieun Kiaer, 2025-01-14 This book demonstrates the importance of raising multilingual children in the UK both for the children's own benefit and for the benefit of society as a whole. Against the backdrop of both the rich linguistic diversity already present in the UK and the challenges faced by any languages other than a few major European languages to find any space in educational contexts, the author challenges the myth that multilingualism hinders English language acquisition and use, instead emphasising the cultural and cognitive advantages of multilingual education and support for home and community languages. The book is a call to action for educators, policymakers and parents, combining practical strategies with research-based insights to support its readers in advocating for multilingual education. It presents a hopeful vision for education in the UK where teachers can combine technological innovations and the linguistic resources of their classrooms and communities to support and promote multilingualism. Subject Guide to Books in Print, 1971 **Educational Times**, 1916 **Environmental Science** Andrew R. W. Jackson, Julie M. Provided by publisher Education Outlook, 1917 **Composing with Confidence** Alan Meyers, 2006 This reader-friendly sixth edition of *Composing with Confidence* focuses on the writing of paragraphs and essays within the composing process. Readers are guided step by step through the process but are provided with options in prewriting, discovery, outlining and predicting. Each chapter in the unit on the rhetorical modes offers academic and professional model paragraphs and essays along with a well-wrought paragraph assignment, an optional essay writing assignment and at least five alternative assignments. A new chapter *Writing on the Job* offers instruction in and models of a job application letter, a résumé and two memos. A repeated feature offers practice in summarizing, paraphrasing, quoting and arranging material from outside sources. And two new features, *Blueprints for Writing* and *Unit Summaries*, offer quick visual summaries of the most important points of the chapter or unit. A full unit on sentence-level issues of grammar and mechanics offers instruction in only those skills that are needed to make writing clear and grammatically correct. Each chapter in the unit ends with two *Editing for Mastery* exercises. *Tips boxes* and *If Your First Language Is Not English boxes* also provide short, specific and practical advice. The book retains its most popular feature: fast-paced, high-interest, continuous discourse materials that makes it fun to read and work with.
