Desmond Baggo, 2021-04-30 Although the United States U S and the more developed nations of the remainder of the world are blessed with a variety of pharmaceuticals feed additives and biological products to treat prevent and control animal diseases there is a healthy desire among persons involved in animal health issues to increase our animal medicine chest The interest stems from the desire to efficiently produce food that is safe and plentiful and from the desire to have more and better government approved products available for the prevention and treatment of diseases of dogs cats and horses and for an increasing variety of minor animal species For the animal health industry increased drug availability means broader markets increased revenues and an opportunity to better serve their customers For the veterinarian more animal health products means that he or she is better able to treat the usual and the unusual conditions and to prevent animal disease and suffering No doubt we are all winners when new technology and industrial and regulatory initiatives hasten the availability of safe and effective animal health products Plant Requirements for Manufacture of Animal Feed Pellets, June 1955 United States. Ritchie, Fern J. the relevant material from most of the authors over 50 books They were written for people who want to help themselves Does that include you This book contains over 50 years of ways we have used to conserve energy We started early The message of energy shortages to come wasn't widely publicized although it's coming was announced and published in the 1950's We hope that rolling blackouts are the most with which we will have to cope In today's culture even that is a minor disaster Electricity is the hinge upon which our lives swing Most of us can't even tell time without electricity or when it comes back on how do we reset the clocks In fact every floating automatic device in the house will need resetting We depend upon electricity for all the niceties of living What about the necessities Food Preservation and Spoilage Heat Light both to see and for security Water No hot water without electricity City and Rural water is supplied by electric pumps Enjoy air conditioning A hot tub Hot water These are things we can live without if we must although there are energy efficient ways to have these things Otherwise either the cost of having them or the need to use a minimum of electricity may make them unavailable Solar Energy will heat your home and provide hot water It will even heat a hot tub We use what is in this book ALL the time
