

HOW TO AVOID PROCRASTINATION

Do Something "As It Is"

Always remember that performing the work well is preferable to aiming to be flawless but failing to complete it. If you are unhappy with the outcome of your job, you may steadily enhance the quality in the future.

Set Goals

Writing a goal for achieving something might be beneficial. A list of short and attainable goals can help you tackle them one at a time, allowing you to make slow progress toward fulfillment.

Stop Working on the Last Minute

You should begin working on time, if not sooner. This manner, you may prioritize your tasks and be prepared to work on the next list. Furthermore, because there is no continual pressure from building up tasks, you may prevent tension.

Focus

Another way to overcome procrastination is to focus on some easier tasks first. Hopefully, by making little goals and categorizing the work, you'll be able to determine which ones are simpler to complete.
