Polar Winds A Century Of Flying The North:

Polar Winds Danielle Metcalfe-Chenail,2014-09-10 With historical research and rare interviews explore the highs and lows of aviation north of the 60th parallel This journey takes readers from hot air balloons above the Klondike gold fields to international bids for the North Pole to high profile crashes and search and rescue operations *Polar Winds* Danielle Metcalfe-Chenail,2014-09-10 *Polar Winds* traces a century of northern flight from balloonatics to bush pilots and beyond They were all gamblers and fortune seekers They did things on their own were independent people who wanted to be free to roam They were good people but of course some were loners or escapists They all depended strictly on their wits Joe McBryan pilot and owner of Yellowknife based Buffalo Airways was talking about gold prospectors in the 1940s when he said this but he could just as easily have been describing the aviators who have flown northern skies for over a hundred years They were adventurers and pioneers but also just men and women doing what was required to make a living north of the sixtieth parallel *Polar Winds* uses the stories of these pilots and others to explore the greater history of air travel in the North from the Klondike Gold Rush through to the end of the twentieth century It encompasses everything from exploration flights to the North Pole in airships to passenger travel in jet liners flying school buses for residential schools to indigenous pilots performing mercy flights and from the harrowing crashes to the routine supply runs that make up daily life in the North Above all it is a unique history told through the experiences of northerners on the ground and in the sky Canadian Women in the Sky Elizabeth Gillan Muir,2015-11-14 How a few women fought to board planes then fly them and finally to break through earth s atmosphere into space The story of how women in Canada from Newfoundland to British Columbia struggled to win a place in the world of air travel first as passengers then as flight attendants and pilots and finally as astronauts Anecdotes sometimes humorous and always amazing trace these women s challenges and successes their slow march over 100 years from scandal to acceptance whether in Second World War skies in hostile northern bush country and even beyond Earth s atmosphere From the time the first woman climbed on board a flying machine as a passenger to the moment a Canadian woman astronaut visited the International Space Station this is an account of how the sky blue glass ceiling eventually cracked allowing passionate and determined air crazy women the opportunity to fly Saturn in the 21st Century Kevin H. Greatest Show in the Arctic P. J. Capelotti, 2016-05-06 In Gilded Age America Arctic explorers were fabulous celebrities assured of riches and near immortality so long as they reached the North Pole first Of the many attempts to meet that goal three American expeditions launched from the Russian archipelago of Franz Josef Land ended in abject failure their exploits consigned to near oblivion Even so these ventures the Wellman expedition 1898 99 the Baldwin Ziegler 1901 2 and the Fiala Ziegler 1903 5 have much to tell us about the personalities politics and economics of exploration in their day In *The Greatest Show in the Arctic* the first book to chronicle all three expeditions P J Capelotti explores what went right and what in the end went tragically wrong The cast of colorful characters from the Franz Josef Land forays included Walter Wellman a Chicago journalist and bon vivant running from debts his mistress and an illegitimate daughter Evelyn Briggs Baldwin a deranged meteorologist with a fetish for balloons and a passion for Swedish preserves and Anthony Fiala a pious photographer in search of God in the Arctic Featuring an international cast of supporting characters worthy of a three ring circus *The Greatest Show in the Arctic* follows each of the three expeditions in turn from spectacular feats of financing to their bitter ends Along the way the explorers accumulated considerable geographic knowledge and left a legacy of place names Through close study of the expeditions journals Capelotti reveals that the Franz Josef Land endeavors foundered chiefly because of poor leadership and internal friction not for lack of funding as historians have previously suspected Presenting tales of noble intentions novel inventions and epic miscalculations *The Greatest Show in the Arctic* brings fresh life to a unique and underappreciated story of American exploration **Aviation Week & Space Technology** ,2001 *The Roaring Twenties* Thomas Streissguth, 2009 Covers the social political and economic history of the 1920s including developments in science from astrophysics to laboratory science to discoveries and inventions the creation of new professional sports leagues the labor union movement censorship and writers artists and moviemakers This volume captures the complexities of the 1920s
