handbook for all students instructors and clinicians in physical therapy occupational therapy athletic training orthopedics or any allied health professional who treats musculoskeletal disorders *Managing the Spino-Pelvic-Hip Complex* Carl Todd, 2022-11-21 *Managing the Spino Pelvic Hip Complex* is based on the author's extensive clinical experience of assessing and treating athletes at all levels. For nearly 20 years his work has been in the field of high performance sport. That experience has informed his clinical reasoning and treatment philosophies which are also based upon lessons learnt from challenging the science through a Doctor of Philosophy degree. The book encompasses a complete management strategy for manual practitioners to use when dealing with ongoing issues pertaining to the spino pelvic hip complex. It presents a strategy which aims to simplify functional biomechanical and bio psychosocial analysis models that can be used as diagnostic tools to highlight kinetic chain and or specific segmental restrictions in the spino pelvic hip complex. The author gives a rationale for the application of the treatment specific to the needs of the athlete using the appropriate manual techniques to the lumbar spine pelvis and hip joint. The treatments are also complemented by strategies for active lifestyle management incorporating activation techniques and movement control exercises. *Managing the Spino Pelvic Hip Complex* complements the courses that the author has developed and delivers. It can be also used as a stand alone educational tool and will be helpful for any therapist working within the sporting environment.
