This book provides a theoretical introduction to the task-based methodology in language and literature teaching. For teachers, the main points of interest are Part Two and Three where a plethora of contemporary texts both from Britain and the US are given a literary analysis which is followed by detailed task-based lesson plans. Part Two focuses on multiculturalism, one of the seminal issues of our time. Part Three tackles gender, another highly topical theme which students are naturally interested in. Well-known authors like the British Asian writer Hanif Kureish and the Indian American novelist Jhumpa Lahiri feature in the chapter on multiculturalism; the gender question is represented by Carol Ann Duffy, the current Poet Laureate and Caryl Churchill, the main representative of feminist drama. *Learning to Teach* Neville Bennett, Clive Carre, 2002-01-31. The Leverhulme Primary Project reported here provides for the first time evidence on what is actually happening in teacher education today and on how novice teachers learn their craft. The book looks in detail at the experience of all the student teachers on one post-graduate primary teacher training course and of those responsible for them in their university and in schools. It tracks them as they work to acquire the appropriate subject and pedagogical knowledge and as their own beliefs about teaching develop during the course. A final section follows some of the students through their first year as qualified teachers. Teacher education is going through a period of radical change and more people than ever before now have some responsibility, whether in higher education or in school, for the training of teachers. None of them can afford to ignore the fresh insights into how teachers are made contained in this book. **Lightning Yr3/P4: Poetry Anthologies Snake's Pyjamas Teachers Notes** Pearson Education, 2003-01-06. Lightning provides 32 books with 3 levels of differentiation per book, whole texts that provide NLS genre coverage, linked themes across fiction, non-fiction and the wider curriculum, focussed teaching support for each book including comprehension and writing activities and a teaching and practice CD that provides opportunities for ICT. *Educating the Teacher of English*, 1965. *Teaching American Literature in Spanish Universities* Carme Manuel Cuenca, 2002. Uno de los aspectos más valiosos de este libro es que comienza enlazando a través de los dos primeros artículos la educación universitaria con su nivel inmediatamente anterior, la escuela de secundaria, una conexión que a menudo se olvida con serios resultados para ambos. En este sentido Benito Camacho Martín, el autor de uno de los artículos, realiza un análisis lícito y en cierto modo dogmático sobre el declive de la enseñanza de literatura en las escuelas de secundaria tanto en horas dedicadas como en conocimientos adquiridos. Los otros artículos, algunos en inglés y otros en castellano, tratan distintos aspectos de la enseñanza de literatura norteamericana con un énfasis manifiesto en materiales del siglo XX y sobre todo en la literatura afroamericana; de hecho, el libro resultará particularmente útil para los profesores de este último.
