

# Exploring the Scientific Method

The scientific method is a step-by-step process that scientists use to investigate and understand the world around them. By following this method, scientists can conduct experiments, make **observations**, and draw **conclusions** based on evidence. Let's explore the different steps of the scientific method and how scientists use it to make discoveries.

## The Steps of the Scientific Method

1. **Ask a Question:** Scientists start by asking a question or identifying a problem they want to investigate.
2. **Do Background Research:** Scientists gather information and learn
