Rocks and Minerals:

Mineral: material that is found in Earth (natural substances that have never been alive)

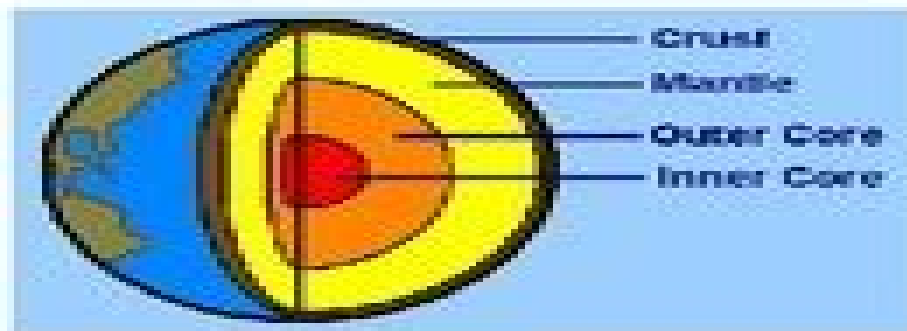

Property of Minerals:

- Luster (how shiny it is)
- Color and Streak (color of the mineral when it becomes powder in streak)
 - Hardness
 - o Mohs' Hardness Scale is used
 - o Talc- hardness of 1 (softest mineral)
 - o Diamond- hardness of 10 (hardest mineral)
- Cleavage (when a mineral splits along flat surfaces)
- Nonmetallic mineral- looks dull (determined by luster, hardness, color, cleavage, other properties)
- Metallic mineral- shiny (determined by color, streak, other properties)

Three Types of Rocks:

1. **Igneous:** form when molten (magma) rock from deep below Earth's surface cools and hardens. (Granite, Basalt, Gneiss)
2. **Metamorphic:** new rock that forms when existing rocks are changed by heat and pressure beneath Earth's surface (Limestone changes to Marble, Granite changes to Gneiss)
3. **Sedimentary:** forms when sand, particles of rock, bits of soil, and bits of once-living things are pressed together and hardened. (Conglomerate, Limestone, Shale)

Advances in Library Administration and Organization Delmus E. Williams, Janine Golden, 2010-11-08 Provides a body of research literature that contributes to the base of organizational theory upon which library administrators rely This title covers a variety of topics relating to the management of academic and public and school libraries *Teacher as Researcher: Action Research by Elementary Teachers* Jay Feng, 2012-12-21 A collection of action research reports by elementary classroom teachers *Assessing English Language Learners in the Content Areas* Florin Mihai, 2010-06-11 Assessing English Language Learners in the Content Areas A Research into Practice Guide for Educators seeks to provide guidance to classroom teachers staff developers and test item designers who want to improve ELL assessment outcomes particularly in the areas of math science and social studies The first two chapters of the book establish the background for the discussion of content area assessment for ELLs examining several important characteristics of this rapidly growing student population as well as critical legislation affecting ELLs and providing a description of various forms of assessment including how ELL assessment is different from the assessment of English proficient students Important assessment principles that educators should use in their evaluation of tests or other forms of measurement are provided Other chapters review ELL test accommodations nationwide because surprisingly most teachers do not know what they can and cannot allow and the research on the effectiveness of these types of accommodations The book analyzes the characteristics of alternative assessment it discusses three popular alternative assessment instruments performance assessment curriculum based measurement and portfolios and makes recommendations as to how to increase the validity reliability and practicality of alternative assessments The book proposes fundamental assessment practices to help content area teachers in their evaluation of their ELL progress **Children's Books in Print** R R Bowker Publishing, Bowker, 1999-12 **Mastering the Georgia 3rd Grade CRCT in Social Studies** Kindred Howard, Katie Herman, 2008 Georgia 3rd Grade CRCT Social Studies Test Preparation Resources in Education , 1972 Academic Success For African-American Students Bobby Allen, Ed.D., 2014-05-08 This mixed methods study of 157 disadvantaged African American students and six teachers investigated the effectiveness of an after school tutoring program in improving students grades The reading English language arts and mathematics grades of student participants were compared using independent t tests and analysis of variance The grades of participants were also compared to corresponding grades of non participants Results showed significant benefits in all areas The author asserts that there exists a better way to educate African American students and assure greater academic success **Who Will Throw the Ball?** Ida H. Love Ph.D., 2015-11-06 School leadership is the difference maker in achieving high expectations for all students by involving all staff parents community and business partnerships Everyone employed in the school has an important role in promoting high student achievement The principal is the leader and is ultimately responsible for everything but does not need to do or know everything Organization early learning professional learning implementation

follow up and feedback are critical components in building an effective school The principal needs a strong leadership team and a very smart dependable and knowledgeable secretary administrative assistant to give leadership to the front office Any principal without anyone other than the best in this position has a setup for failure because the major part of the job is in the classroom for the leader and not the office Early learning is the foundation for all future learning and beginning in pre k and kindergarten educators can set the tone for student success All children can learn to read by the end of kindergarten by utilizing the services of paraprofessionals who have received professional learning skills to reinforce instruction previously taught by the teacher Why do we have some students in middle and high schools who cant read The answer is obviousthe foundation was not set in the early years Try building a house without a foundation and you will find yourself spending twice the amount of time and money doing what should have been done in the first place Many times when students have not been adequately prepared to enter secondary schools they no longer have the will and motivation to learn and this is tragic because dropout is usually the only option Students need social emotional and other developmental skills in the early years but it is time to emphasize instructional skills also starting with writing reading listening to daily storytelling and daily high frequency words We cant afford to continue moving students from grade to grade and they cannot read
