T, Lt Col (Dr) Regina. P. F, 2023-08-07 India a prominent country in the Asian continent has a long history of nursing care Basically one can understand that the approach to nursing profession has been improving as many young people take up the education in nursing profession as someone gets join in any other graduate program Florence Nightingale founder of modern nursing was the first woman to have great influence over nursing in India and had a close knowledge of Indian conditions especially in the army The literature says that in 1865 Nightingale drew up some detailed Suggestions on a system of nursing for hospitals in India Graduates were sent out from the Nightingale School of Nurses of St Thomas Hospital England to start similar schools in India St Stephen s Hospital Delhi was the first one to begin training the Indian women as nurses in 1867 Quality of education and clinical exposure to nursing students are also under constant updates in the country The reason for this change is that majority of nurses trained in India tend to move to countries abroad especially countries like Australia Canada USA UK and Europe too Better pay and working conditions are attracting many Indian nurses are also started moving towards the west specially countries like Germany Italy Austria Netherlands etc There are also changes in the formation of nurses in India that they are also upgrading the level of nursing education into a bachelor s degree As per the Indian nursing council notification from 2021 onward nurses will only be trained with a bachelor s degree B Sc in nursing Individuals need care and attention as long as they live On the one hand demographically population and human life expectancy are increasing and the care systems demands a lot of challenges and opportunities On

the other hand experiments and the efforts to overcome diseases continue From the experiences from India it is interesting to know that many young minds take up nursing studies when compare to paramedical courses Nursing course is still the most likely job accelerated program in India among all other medical allied courses other than the Bachelor of Medicine program Recent Advances in Data Mining of Enterprise Data Thunshun Warren Liao,Evangelos Triantaphyllou,2008 The main goal of the new field of data mining is the analysis of large and complex datasets Some very important datasets may be derived from business and industrial activities This kind of data is known as enterprise data The common characteristic of such datasets is that the analyst wishes to analyze them for the purpose of designing a more cost effective strategy for optimizing some type of performance measure such as reducing production time improving quality eliminating wastes or maximizing profit Data in this category may describe different scheduling scenarios in a manufacturing environment quality control of some process fault diagnosis in the operation of a machine or process risk analysis when issuing credit to applicants management of supply chains in a manufacturing system or data for business related decision making
