Advances in Web Based Learning - ICWL 2008 Frederick Li, Jianmin Zhao, Rynson Lau, Qing Li, Denis McLeod, 2008-08-19 This year we received about 170 submissions to ICWL 2008. There were a total of 52 full papers representing an acceptance rate of about 30% plus one invited paper accepted for inclusion in this LNCS proceedings. The authors of these accepted papers came from many different countries. We would like to thank all the reviewers for spending their precious time reviewing the papers and for providing valuable comments that aided significantly in the paper selection process. Authors of the best papers presented in this conference will be invited to submit extended versions of their papers for possible publication in a special issue of IEEE Internet Computing. This was the second time that the ICWL conference was organized in China. It was particularly special this year to hold ICWL 2008 in China as the Beijing 2008 Olympic Games were co-located in the same country during the conference period. We would like to especially thank our Organization Co-chair Lanfang Miao for spending an enormous amount of effort in coordinating the local arrangements. In fact, we would like to thank the entire conference Organizing Committee for their hard work in putting together the conference. In particular, we would like to express our appreciation to our Registration Chairs Jiying Jean Wang and Lanfang Miao and Treasurer Howard Leung for their tremendous efforts in communicating with the authors regarding registration matters and maintaining the registration lists up to date.

The Use of Databases in Cross-Linguistic Studies Martin Everaert, Simon Musgrave, Alexis Dimitriadis, 2009-03-26 This book promotes the development of linguistic databases by describing a number of successful database projects focusing especially on cross-linguistic and typological research. It has become increasingly clear that ready access to knowledge about cross-linguistic variation is of great value to many types of linguistic research. Such a systematic body of data is essential in order to gain a proper understanding of what is truly universal in language and what is

determined by specific cultural settings Moreover it is increasingly needed as a tool to systematically evaluate contrasting theoretical claims The book includes a chapter on general problems of using databases to handle language data and chapters on a number of individual projects Note This title was originally announced as including a CD Rom with databases The CD Rom however was replaced by a list of URLs within the book More information as well as links to the databases can also be found here
