The practice set is based on periodic inventory methods; however, an appendix at the back gives the lecturer the flexibility to also teach the perpetual method if required. The major advantage of teaching and learning with a manual practice set is that students will gain a genuine understanding of the underlying processes involved in preparing a set of financial statements. Equestrian Centre gives accounting students the opportunity to prepare a set of accounts manually Many accounting students think that there is no point in practising manual bookkeeping as computers with accounting software are used in most businesses today It is true that after most accounting students have graduated and entered the workforce they will never be required to do manual bookkeeping Without an exercise such as this accounting practice set students will miss out on the opportunity to see and experience the way all of the steps in the accounting cycle fit together The steps in the accounting cycle such as analysing source documents recording journal entries posting to the ledger accounts preparing adjusting and closing entries and preparing a worksheet and financial statements are usually taught in a number of sessions over a period of weeks An accounting practice set gives students practice at working through the whole accounting cycle thereby discovering how all the steps in the cycle are related **Zander's Toy Store Pty Ltd** Martin Bugeja,2011-02-07

Zander s Toy Store Pty Ltd is intended for students studying introductory accounting and can be used with any introductory textbook An advantage of this practice set over many others is that revenue and expense accounts have not been closed at the end of the previous month therefore providing students with a more realistic scenario This practice set provides students with the unadjusted trial balance at the end of May and requires students to record typical transactions for a retail business for the last month of the financial year Once these transactions have been recorded and posted students are required to complete the accounting cycle by journalising and posting adjusting and closing entries and preparing financial statements Students that complete this practice set should develop the skills necessary to keep a set of manual accounting records and understand the steps required to complete the accounting cycle
