Dead Women Talking Brian Norman, 2012-11-15 Brian Norman uncovers a curious phenomenon in American literature: dead women who nonetheless talk These characters appear in works by such classic American writers as Poe, Dickinson, and Faulkner, as well as in more recent works by Alice Walker, Toni Morrison, Tony Kushner, and others These figures are also emerging in contemporary culture from the film and best selling novel *The Lovely Bones* to the hit television drama *Desperate Housewives* *Dead Women Talking* demonstrates that the dead, especially women, have been speaking out in American literature since well before it was fashionable Norman argues that they voice concerns that a community may wish to consign to the past, raising questions about gender, violence, sexuality, class, racial injustice, and national identity When these women insert themselves into the story, they do not enter precisely as ghosts but rather as something potentially more disrupting: posthumous citizens The community must ask itself whether it can or should recognize such a character as one of its own The prospect of posthumous citizenship bears important implications for debates over the legal rights of the dead, social histories of burial customs and famous cadavers, and the political theory of citizenship and social death Leonard Cassuto, author of *Hard Boiled Sentimentality: The Secret History of American Crime Stories* *Canon Reloaded* Jacqueline Grassmayr, 2013-06-25 Using student friendly language and an engaging thematic approach to bring the canon to life, *CANON RELOADED* invites students to think about what we mean by the literary canon, why it is created, and how it might be challenged Students will encounter and respond to literary classics alongside contemporary texts and texts in translation as they explore how themes such as journeys, love, death, and the world we live in recur across a variety of historical moments and literary movements

Splattered Ink Sarah E Whitney,2016-08-01 In depth and refreshingly readable *Splattered Ink* is a bold analysis of postfeminist gothic a literary genre that continues to jar readers reject happy endings and find powerful new ways to talk about violence against women Sarah E Whitney explores the genre s challenge to postfeminist assumptions of women s equality and empowerment The authors she examines Patricia Cornwell Jodi Picoult Susanna Moore Sapphire and Alice Sebold construct narratives around socially invisible and physically broken protagonists who directly experience consequences of women s ongoing disempowerment Their works ask readers to inhabit women s suffering and to face the uncomfortable all too denied fact that today s women must navigate lives fraught with risk Whitney s analysis places the authors within a female gothic tradition that has long given voice to women s fears of their own powerlessness But she also reveals the paradox that allows the genre to powerfully critique postfeminism s often sunshiney outlook while uneasily coexisting within the same universe

Cruel Attachments John Borneman,2015-03-10 Child molesters are widely

regarded as the most incorrigible of criminal types as recidivists who deserve harsh punishment In Germany today however attention has shifted from punishment to court mandated rehabilitation through therapy Therapists guide the offender through a process normally assigned to a religious authority the transformation of the criminal into a person capable of reintegration into society Cruel Attachments is anthropologist John Borneman s account of the attempt to rehabilitate child sex offenders through therapy Using select case studies Borneman follows the experience of offenders from accusation to admission of culpability through arrest trial imprisonment treatment release from prison and either social reincorporation or indefinite surveillance The book opens with an absorbing and disturbing ethnography of a particularly important and sensational case of the rehabilitation of the infamous Berlin sex offender Alexander Marquardt Marquardt was a child abuser and brutal pimp who underwent rehabilitation therapy during his long imprisonment During his therapy it was discovered that he had been sexually abused by his mother over several years starting when he was pre pubescent After his lengthy and ultimately successful rehabilitation Marquardt was released and is now a successful owner and manager of a fitness center Borneman s vivid account of Marquardt addresses the controversial question of whether such therapy really works in the sense of changing a person s deepest desires The subsequent case histories and theory chapters range from general reflections on the historical evolution of cultural handling of child sexual abuse to cases of incest pedophilia inappropriate sex play between parents and children among others This is the first book ever on the topic of the intensely ambiguous and fraught project of attempted rehabilitation of perpetrators and what that project tells us about ourselves and our culture s contradictions No other book has combined that focus with a larger meditation on the state of anthropology as Cruel Attachments so beautifully does

Supporting Reading in Grades 6-12 Sybil M. Farwell, Nancy L. Teger, 2012-06-11 This book presents a curricular framework for students grades 6-12 that school librarians and teachers can use collaboratively to enhance reading skill development, promote literature appreciation, and motivate young people to incorporate reading into their lives beyond the required schoolwork. *Supporting Reading Grades 6-12: A Guide* addresses head-on the disturbing trend of declining leisure reading among students and demonstrates how school librarians can contribute to the development of lifelong reading habits as well as improve students' motivation and test scores. The book provides a comprehensive framework for achieving this: the READS curriculum, which stands for Read as a personal activity, Explore characteristics, history, and awards of creative works, Analyze structure and aesthetic features of creative works, Develop a literary-based product, and Score reading progress. Each of these five components is explained thoroughly, describing how school librarians can encourage students to read as individuals, in groups, and as school communities support classroom teachers' instruction and connect students to today's constantly evolving technologies. Used in combination with an inquiry/information skills model, the READS curriculum enables school librarians to deliver a dynamic, balanced library program that addresses AASL's Standards for the 21st Century Learner.
