of snowflakes She takes us on a tour of astonishing innovations including botanist Anna Atkins and her extraordinary blue hued cyanotypes and the world's first photobook Eadweard Muybridge and tienne Jules Marey's famed experiments in capturing motion and their long legacy large format photography and photographs so small as to be invisible to the naked eye and aerial photography using balloons kites pigeons and rockets Burgess also delves into the early connections between photography and society that are still with us today how photo manipulation the art of fake images was an issue right from the start how the police used the telephoto lens to surveil suffragists and how leading Black figures like Sojourner Truth and Frederick Douglass adapted self portraits to assert their identity and autonomy Richly illustrated and filled with fascinating tales *Flashes of Brilliance* shows how the rise of a new art form transformed culture and our view of the world *History of Art* Horst Woldemar Janson, Anthony F.
