Tainted Blood English Edition:

Light in the Dark Bjö Norðfjörð, 2025 *Light in the Dark* tells the dramatic history of Icelandic cinema from its modest origin in the early twentieth century to the heterogeneous and complex national cinema of today. In tracing this wide ranging history, author Björn Norðfjörð describes the constant tug between local and national cultural forces and the transnational and global pull of world cinema. Norðfjörð starts by casting light on the earliest films made in the country, expanding outward to survey Scandinavians' adaptations of Icelandic literature, films during the late silent period, documentaries of the interwar period, and the first narrative features following the end of World War II and national independence. He traces the emergence of national cinema proper to the 1980s with the foundation of the Icelandic Film Fund, explores the subsequent impact of first European art cinema and then Hollywood genre cinema, and finally considers the remarkable international success of Icelandic cinema in the twenty-first century. Along the way, Norðfjörð draws attention to many additional issues and topics regarding Icelandic cinema, including depictions of nature and animals, the aesthetics of fire and ice, the role of film adaptation, the impact of Nordic noir and crime fiction, Hollywood runaway productions, and the question of women's cinema in Icelandic filmmaking. Throughout the book, films from all periods of Icelandic filmmaking are analysed in detail, with equal emphasis on content and form, including both lesser-known titles and key films like *The Outlaw and His Wife* (1917), *Salka Valka* (1954), *Land and Sons* (1980), *When the Raven Flies* (1984), *Cold Fever* (1995), *101 Reykjavík* (2015), and *Godland* (2022).

The Tainted-Blood Tragedy in Canada Gilles Paquet, Roger A. Perrault, 2022-08-10 Canada experienced a tainted blood crisis in the latter part of the 20th century. It left a number of Canadians dead and a large number incapacitated or seriously handicapped. It has been established by the court that there was no criminal negligence at the source of this event, but there were most certainly governance failures. This latter aspect of the tragedy has not received the attention it deserves. These governance failures have transformed the crisis into a tragedy, and the tragedy generated a miscarriage of justice if justice delayed for decades may be regarded as justice denied. This book has been written by a specialist on governance and a medical doctor and scientist who managed the Canadian blood transfusion system for 17 years. It challenges the conventional wisdom that underpinned the four ill-founded accusations against a few persons levied by interest groups, the media, and the Office of the Solicitor General of Ontario, and it argues that the tragedy was the result of a cascade of pathologies of governance. A systemic reconstruction of the tragedy is proposed; the administrative processes that we argue were responsible for the pathologies of governance are exposed, and suggestions are made to neutralize such malefactors in the future. The full text of the judgment and reasons provided by Justice Benotto when one of the ill-founded accusations was brought to court is enclosed. This led the Crown to drop the other three ill-founded accusations. A postface underlines the lack of critical thinking that has allowed such a tragedy to follow its course.
