

The answers will vary from student to student. Both diagrams present a useful view of the system. The context-level data flow diagram provides more information as a diagram, but may be too complex for Alice. The use case diagram is a simpler view, but the use case scenario will provide the details of the transactions.

11. Draw a use case and write up a use case scenario for getting two or three email accounts. Think about the steps that are needed to ensure security.

The use case scenario follows.
