Provenzo Jr., Sandra H. Fradd, 1995-07-01 Hurricane Andrew struck South Florida early on Monday morning August 24 1992 Widely described as the worst natural disaster in modern U S history the storm left 38 people dead in South Florida 80 000 homes destroyed and damage estimates of at least 20 billion The area devastated by the hurricane was approximately three times the size of Manhattan Almost 250 000 people were left homeless by Andrew roughly the population of the entire city of Las Vegas Nevada Garbage generated by the storm in a single night was equal to the projected landfill for Dade County for the next thirty years **The Politics of Disaster** David K Twigg, 2017-08-18 A careful nuanced approach in examining the effects of a hurricane on a region s electoral politics at all levels of government including localities sometimes neglected by American political science but central to disaster politics Political Science Quarterly Twigg has thoroughly researched and assembled an impressive array of facts by pouring through scholarly documents books and back issues of magazines Florida Historical Quarterly A rigorous study of disaster s impact on elected local and state political officials on their electoral fortunes or misfortunes and on the local political fabric of impacted jurisdictions Richard T Sylves George Washington University A significant contribution to the field of disaster studies Naim Kapucu University of Central Florida From earthquakes to tornados elected officials responses to natural disasters can leave an indelible mark on their political careers In the midst of the 1992 primary season Hurricane Andrew overwhelmed South Florida requiring local state and federal emergency responses The work of many politicians in the storm s immediate aftermath led to a curious incumbency advantage in the general election a few weeks later raising the question of just how much the disaster provided opportunities to effectively campaign without campaigning David Twigg uses newspaper stories scholarly articles and first person interviews to explore the impact of Hurricane Andrew on local and state political incumbents revealing how elected officials adjusted their

strategies and activities in the wake of the disaster Not only did Andrew give them a legitimate and necessary opportunity to enhance their constituency service and associate themselves with the flow of external assistance but it also allowed them to achieve significant personal visibility and media coverage while appearing to be non political or above normal politics This engrossing case study clearly demonstrates why natural disasters often privilege incumbents Twigg not only sifts through the post Andrew election results in Florida but he also points out the possible effects of other past and future disaster events on political campaigns in this fascinating and prescient book *Hurricane!* John Dorschner, Patricia Lantier-Sampon, 1993 Text and photographs depict the destruction caused in southern Florida in 1992 by Hurricane Andrew **My Hurricane**
