**Psalm 83: A New Discovery** Alexander Zephyr, 2014-11-13 In this remarkable book Alexander Zephyr reveals the true identities of the nations that will participate in the genocidal conspiracy against Israel described by the Prophet Asaph in Psalm 83 Through extensive research Zephyr offers biblical scholars and students comprehensive explanations grounded in cogent scholarship on the Scriptures Geopolitical events have catapulted the Middle East into a battlefield between Israel and its Arab Muslim neighbors This war has become a spectacle that command attention on the world stage Other nations however are not merely passive spectators what happens in the Middle East profoundly affects them regardless of their geographical location Indeed perhaps no other conflict is more influential and complicated or persistent than that in Israel and specifically in Jerusalem Israel is also the key to understanding Asaph's prophecy In Psalm 83 A New Discovery Zephyr offers a clear and compelling reading of this prophecy that correctly identifies players of an already unfolding eschatological drama whose script has been divinely written

*The Redemption Codes* Daniel L. Brown,2024-07-02 Professor Lange a world renowned mathematician and his father a respected Baptist minister lived in two very different worlds One was a world of academia and science the other of faith Those worlds miraculously merged one fateful day when the father in a desperate attempt to connect with his son issued a challenge Although skeptical the professor agreed to test his father s claim that there were embedded codes in the original Hebrew version of the Old Testament that when discovered would reveal amazing details about significant events throughout history Due to the father s untimely and tragic death he would never know that his simple challenge would someday end in one of the most amazing discoveries in the history of mankind a discovery of cosmic proportions that could forever change the trajectory of the human race Nor would the father ever see that what started as an attempt to bridge the gap between his world and the world of his son would result in suspense intrigue wild chases and an international manhunt that would lead from the mountains of western North Carolina to the Temple Mount in Israel Along the way the professor learned an important lesson It was not the phenomenal discoveries that had the greatest impact on the professor s life It was the journey itself A journey that started in his world and ended in the world his father embraced One that started in a world predicated on cynicism and unbelief and ended in a world of faith and promise
