5329 EIC N A     **Text-book of Gunnery. 1887** G. Mackinlay, 1887     The Queen's Regulations and Orders for the Army  
Great Britain. War Office, 1889     **U.S. Army Tractor Trucks and Semitrailers** Didier Andres, 2025-08-07 Examines the  
various tractor trucks and semi trailers used by the U S Army during World War II highlighting their specialized functions  
and logistical impact In the late 1930s the U S Army began a significant overhaul of its vehicle fleet shaping the logistics  
backbone of World War II Affecting this effort were two major schools of thought regarding logistical support some experts  
proposed the trailer or semi trailer which had a physical separation between the mechanical part of the truck and the rear  
technical part containing supplies or specialist equipment opponents encouraged the use of compact and inseparable  
assemblies to save time in the field Both types of trucks would be used during World War I complete trucks intended for the  
front and its immediate rear the lines of communications and the staging area being the domain of tractors and semi trailers  
This book examines all the different weight categories of tractor trucks and semi trailers used by the U S Army during World  
War II Illustrated with hundreds of period photographs illustrations and diagrams the text discusses all variants including an  
array of specialized vehicles for units such as commissary engineering aviation and cavalry     *Manual for non-commissioned  
officers of garrison and siege artillery in preparing for examination before promotion* War office, 1895
