Thinking Beyond the Test Paul A. Wagner,Daphne Johnson,Frank Fair,Daniel Fasko Jr.,2016-12-07 In the wake of initiatives such as No Child Left Behind and the use of high stakes testing the emphasis in schools has been on drill and practice for the test Genuine understanding and critical thinking have been increasingly shortchanged As a result students have fewer opportunities to advance their insight into cognitive and emotional challenges even though both teachers and parents recognize the importance of developing deliberative and reflective thinking skills This book uniquely combines two things First it provides resources for classroom teachers in grades 3 6 that make it possible for them at a moment s notice to take advantage of a teachable moment by drawing students into productive intellectual discussions Second it gives the reader an overview of the rationale and the research base for engaging students in educational activities that are truly intellectual and that are not limited to training for testing success
