The Little Red Schoolbook:

The Little Red Schoolbook Bill John Somerville Smith, George Hannan, 1972 *The Little Red Schoolbook* Søren Hansen, 2014 When it first appeared in the 1970s The Little Red Schoolbook was banned by the UK authorities which confiscated copies and prosecuted the publisher under the Obscene Publications Act Why Because this little book aimed to educate teenagers about democracy sex and drugs in frank simple language and encouraged them to view adults as paper tigers The Little Red Schoolbook has been unavailable for more than 40 years but it remains surprisingly relevant for young people today Reissued here in its original and uncensored format with informative footnotes and a new foreword by the s

Offensive Literature John Sutherland, 1983-01-01 This provocative book takes decensorship from the 1960 Lady Chatterley trial through the long term drive against pornography which continues into the 1980s *The Little Red School Book* Søren Hansen, Jesper Jensen, 1973 [The European Convention for the Protection of Human Rights](#) Mireille Delmas-Marty, 2021-10-25 The reason of State plays an important role under the European Convention for the Protection of Human Rights and Fundamental Freedoms Not only does Article 15 authorize States to take measures derogating from their obligations under the Convention in time of war or other public emergency threatening the life of the nation most of the rights and liberties defined in the Convention are subject to escape clauses as well This book demonstrates first that the system of the Convention is much more ambiguous than could have been expected Secondly it shows on the basis of study carried out in most of the Member States of the Council of Europe that a certain resistance exists to the Convention Neither the ambiguity of the European system nor the resistance of States to the system must be overlooked These should not however conceal the dynamics of the Europe States relationship which could well lead to a more reasoned conception of the reason of State Has a Europe of human rights begun to develop through the complex interplay of national and European norms This is the question raised in this fascinating book Mireille Delmas Marty is professor of Law at the Universit de Paris 1 Panth on Sorbonne and Director of the Section de Sciences Criminelles of the Institute of Comparative Law in Paris

The Censor's Library Nicole Moore, 2012 A history of book censorship in Australia what we couldn't read didn't read didn't know and why we didn't For much of the twentieth century Australia banned more books and more serious books than most other English speaking or Western countries from the Kama Sutra through to Huxley's Brave New World and Joyce's Ulysses **A Matter of Obscenity** Christopher Hilliard, 2023-09-26 A comprehensive history of censorship in modern Britain For Victorian lawmakers and judges the question of whether a book should be allowed to circulate freely depended on whether it was sold to readers whose mental and moral capacities were in doubt by which they meant the increasingly literate and enfranchised working classes The law stayed this way even as society evolved In 1960 in the obscenity trial over D H Lawrence's Lady Chatterley's Lover the prosecutor asked the jury Is it a book that you would even wish your wife or your servants to read Christopher Hilliard traces the history of British censorship from the Victorians to Margaret Thatcher

exposing the tensions between obscenity law and a changing British society Hilliard goes behind the scenes of major obscenity trials and uncovers the routines of everyday censorship shedding new light on the British reception of literary modernism and popular entertainments such as the cinema and American style pulp fiction and comic books He reveals the thinking of lawyers and the police authors and publishers and politicians and ordinary citizens as they wrestled with questions of freedom and morality He describes how supporters and opponents of censorship alike tried to remake the law as they reckoned with changes in sexuality and culture that began in the 1960s Based on extensive archival research this incisive and multifaceted book reveals how the issue of censorship challenged British society to confront issues ranging from mass literacy and democratization to feminism gay rights and multiculturalism *A History of Abortion and Contraception in Queensland, Australia, 1960-1989* Cassandra Byrnes, 2024-06-03 This book looks at the recent history of sex contraception and abortion in Australia's most conservative state Queensland In western nations there has largely been a consistent increase in available contraception and access to abortion from the 1960s onwards yet there are a few geographical exceptions that resisted this trend including Queensland Cassandra Byrnes highlights the multifarious ways sexuality and reproduction were continually constructed and challenged during the second half of the twentieth century and follows the responses of key groups to changing laws and attitudes in a time of local and global sexual and social revolutions She explores interactions between identities of gender sexuality class age marital status and geography to illustrate how specific sexed bodies became liminal sites for legal and medical debate This Queensland case study is contextualised within international debates concerning women's reproductive rights and will be of interest to students and scholars interested in the history of reproductive rights gender and sexuality

publication in the teaching of international law from one of the world's leading international lawyers The Biographical

uses a small number of key cases in depth throughout the text to illustrate and explain the subject within a practical real
world context It is a guide to the constitutional principles of English administrative law and a detailed account of how those
principles are applied Too Much Robert Hewison, 2023-02-03 First published in 1986 Too Much records the tumultuous
period between 1960 and 1975 when more than at any other time in history the arts were a battleground for the conflicting
forces of social change With the new affluence of the Sixties the cultural conformism of the previous decade was rejected in
favour of new forms of expression Pop Art pop music fringe theatre and performance poetry helped to create the semi
mythological image of Swinging London The liberation ethic was feted as it masked the insecurities of a society in decline but
as a real political challenge to the status quo it also led to conflict The confrontation between official culture and the
underground came in 1968 a year with its own mythical resonance This book will be of interest to students of art media
studies and cultural studies *From Your Gods to Our Gods* Marco Ventura, 2014-10-16 The global world debates secularism
freedom of belief faith based norms the state's arbitration of religious conflicts and the place of the sacred in the public
sphere In facing these issues Britain India and South Africa stand out as unique laboratories They have greatly influenced the
rest of the world As single countries and together as a whole the three have moved from the colonial clash of antagonistic
religions of your gods to an era when it has become impossible to dissociate your god from my god Today both belong to the
same blurred reality of our gods Through a narrative account of British South African and Indian court cases from 1857 to
2009 the author draws an unconventional history of the process leading from the encounter with the gods of the other to the
forging of a postmodern common and global religion Across ages borders faiths and laws the three countries have
experienced the ambivalent interaction of society politics and beliefs Hence the lesson the world might learn from them our
gods promise an idealized purity but they can only become real in the everyday creation of mixed identities hybrid deities and
shared fears and hopes *Fifty Years a Feminist* Sue Kedgley, 2021-05-13 In 1971 Sue Kedgley and a group of other young
feminists carried a coffin into Auckland's Albert Park to protest against decades of stagnant advancement for New Zealand
women since they won the right to vote in 1893 From that day she became synonymous with Second Wave feminism in this
country most notably organising a tour by Germaine Greer that ended in an arrest and court appearance In this direct
energetic and focused autobiography Kedgley tracks the development of feminism over the last five decades and its

intersection with her life describing how she went from debutante to stropky activist journalist safe food activist and Green politician Her rich and rewarding life has included encounters with Betty Friedan Yoko Ono Kofi Annan Sonja Davies and the Dalai Lama and she has never abandoned her feminist convictions She regrets that there is still a culture of male entitlement sexism and double standards and that women are still victims of violence Even so she argues feminism has achieved an extraordinary amount Fifty years ago women were a sort of underclass Now they have entered almost every sphere of national life even if many pay a high price for their hard won success Thanks to the movement she says after centuries of subjugation women are finally coming into their own It is she says their time now and their turn

Robert Duncan, Eric Mottram, 2007 Robert Duncan was a defining figure of twentieth century American poetry Eric Mottram was a pioneer in the field of American Studies in the UK and a key contributor to the British Poetry Revival In the 1970s the two men conducted a wide ranging dialogue on poetry politics and the religious through an exchange of intense and often expansive letters Mottram continued the dialogue in two substantive critical examinations of Duncan's work The Unruly Garden presents an annotated edition of the complete available correspondence along with the two essays The first essay was heavily edited when originally published and is included here in its restored form The second essay appeared in a small press magazine and now receives the wider circulation it deserves

Research Handbook on Interdisciplinary Approaches to Law and Religion Russell Sandberg, Norman Doe, Bronach Kane, Caroline Roberts, 2019 Following 9/11 increased attention has been given to the place of religion in the public sphere Across the world Law and Religion has developed as a sub discipline and scholars have grappled with the meaning and effect of legal texts upon religion The questions they ask however cannot be answered by reference to Law alone therefore their work has increasingly drawn upon work from other disciplines This Research Handbook assists by providing introductory but provocative essays from experts on a range of concepts perspectives and theories from other disciplines which can be used to further Law and Religion scholarship
