policies towards council housing and the long term retreat into a residual tenure A distinctive aspect of the account is its analysis of the quality of housing offered by local authorities and the responsiveness democracy and efficiency of housing management Particular emphasis is given to the deal which users have received from local authorities and their varying responses to that deal The authors also review New Right arguments for the final eclipse of state housing while at the same time discussing initiatives to reform it The Eclipse of Council Housing presents a lucid study of a key social policy issue which was central to the housing crisis at the time and challenges the view that council housing should be consigned to the scrapheap It will be invaluable to all students and lecturers in social policy housing town planning and urban studies as well as social policy and housing professionals
