workshop manual for the 1962 to 1966 models and the later workshop manual for the 1968 to 1970 MK2 or Series II In addition it also includes the three illustrated factory Spare Replacement Parts manuals The difficult to find 1962 66 MK1 the 1967 68 MK1A and the 1969 70 MK2 models which also includes the often missing 1970 Supplement While Royal Enfield never issued a workshop manual that was specific to the MK1A model the later MK2 manual when used in conjunction with the MK1A parts manual it will provide adequate maintenance and repair information This manual covers the following models 750cc Royal Enfield Interceptor MK1 Workshop Parts Manuals the Workshop Manual covers both the early and late MK1 models and both the UK and the USA variants 750cc Royal Enfield Interceptor MK1A Parts Manual 750cc Royal Enfield Interceptor MK2 Workshop Parts Manuals the Workshop Manual also includes data that is specific to the 1962 to 1968 models PRODUCTION DETAILS The 750cc UK Interceptor MK1 or Series I model was produced from September 1962 through December 1965 The 1964 line up was expanded to include a Standard 6 volt model September 63 to August 64 plus a De Luxe model with 12 volt electrics Then in January 1966 Interceptor production was temporarily suspended for the UK market until September 1967 However when UK production resumed the 750cc Interceptor MK1A now fitted with coil ignition and Amal Concentric carburetors was released October 67 to September 68 The final variant the MK2 or Series II was produced from October 1968 to July 1970 However as both the 1969 70 Clymer Indian Enfield and the 1970 72 Rickman Enfield utilized the MK2 engine this manual will also be of use to owners of those rare models Due to a number of different reasons there is a great deal of confusion surrounding production details and the various differences between the UK and USA Interceptor models Firstly it is a known fact that the engine and frame numbering procedure did not follow a pattern and at times was somewhat random Adding to this confusion is that during the 1966 1967 factory shut down of UK Interceptor production various models were still being built for export to the USA Then beginning in March 1967 the company went through a number of significant changes in manufacturing location management ownership rights and mergers However it is known that in 1964 the USA Interceptor became the TT model The Custom model was added in 1965 and the GT in 1966 Consequently it is very likely that the Interceptor models produced for the USA during the 1966 1967 UK market shut down included the Custom and the TT and GT variants There were two MK1A models produced for the USA market the TT7 Scrambler and the GP7 Road Racer The final UK USA model the MK2 was introduced for 1968 and remained in production through mid 1970 The cover image is a 1970 MK2 and the previous optional air cleaner oil cooler skid plate and seat rail were all fitted as standard equipment however the larger fuel tank was still an option In order to help identify the subtle differences between the UK and the USA models the reader is encouraged to review all three parts manuals and both workshop manuals prior to performing any adjustments or repairs It should be noted that the MK2 workshop manual contains information that is also specific to the earlier models including the MK1
