**Cosmopolitanism in China, 1600-1950** Minghui Hu ,Johan Elverskog,2016-01-28 At the height of the Cultural Revolution and the Cold War in 1971 the historian Joseph Levenson made the astute observation that China used to be cosmopolitan on account of Confucianism At that time the notion of China much less Confucianism as somehow being cosmopolitan may have surprised many of his readers especially because so many conventional ideas about China ranging from its kith and kin social structure to its purportedly eternal and monolithic state structure seem to reflect a society that was the very antithesis of cosmopolitanism Indeed even now or perhaps even more so now on account of growing Chinese nationalism Han chauvinism and global fears of a rising China the idea of Chinese cosmopolitanism may strike many as ill conceived Levenson as with so much of his scholarship was clearly on to something important In fact in the current academic climate it seems almost irresponsible not to address this This book is therefore a much needed pioneering attempt to explore the implications and possibilities of Levenson s potent observation regarding China in relation to the growing scholarship on cosmopolitanism around the world It is an important intervention in both the current scholarship on modern China and the scholarship on cosmopolitanism in its global articulations **Rere Atu, Taku Manu!** Jenifer Curnow,Ngapare Kaihine Hopa,Jane McRae,2002 This work is the result of a three year research and translation project into 19th and early 20th century Maori language newspapers *Computational Science - ICCS 2020* Valeria V.
