Sturmbrigade Dirlewanger One month later it fought one of its most controversial actions near the town of Ipolysag Hungary now known by its Slovak name of Ipoly between 13 and 18 December 1944 As a result of its overly hasty and haphazard deployment lack of heavy armament and a confusing chain of command it was virtually destroyed by two Soviet mechanized corps Consequently the Wehrmacht leadership blamed Dirlewanger and the performance of his troops for the encirclement of the Hungarian capital of Budapest during late December 1944 that led to the annihilation of its garrison two months later The brigade's defeat at Ipolysag also led to its compulsory removal from the front lines by General der Panzertruppe Hermann Balck and its eventual shipment to a rest area where it would be completely rebuilt so thorough was its destruction Despite its lackluster performance the brigade was rebuilt once again and sent to East Prussia in February 1945 but never recovered from the thrashing it received at the hands of the 6th Guards Army in December

Kathy L. Middleton, 2016-11-21. Borrowing winning techniques from the business world, this book examines ways you can make library service more personalized, focused, and solutions-oriented for your patrons. When it comes to delivering the quality personalized service your patrons expect, the staff is the most important resource in the library. It only follows then that by empowering staff, breaking and fixing rules, cultivating creativity, and focusing on results, your library can meet and exceed patron expectations. To help you accomplish that and more, this book presents the yes model for customer service and explains how to use the model to build morale and grow a loyal, engaged, and highly satisfied community. The book shows how techniques borrowed from successful retail models can be applied to every part of library service, from reference, circulation, and technology services to children's and adult services. Beginning chapters describe the role of staff in transforming a culture of no into one of yes. Next are explanations of tools administrators can use to support changes that will lead to a more contented customer base. Finally, the book addresses how to eliminate no through personalized service and by defining and tearing down obstacles that often block use of library products and services. This approach not only will make for happier patrons but will build staff morale, foster support, and ensure that your library remains relevant for years to come.

Chef, 2006. *From Prison to Possibilities*, Kim Nugent, 2021-11-06. The purpose of this book is to develop a plan for your successful transition from incarceration to living a full and productive life post-release. Ideally, the process of getting ready for the transition starts six months prior to your release. The ideal

structure is for you to have a mentor and go through this program every week while still in prison and twelve weeks post incarceration. The objective is to reduce recidivism by addressing community reintegration issues and providing a structure for transition success. In other words to keep you from returning to prison by helping you build a successful life as you address typical problems in the free world outside of the prison walls. The book provides some prework to get you ready to reach out to a mentor. Once you are ready you and your mentor will meet weekly to discuss the chapter. The design of the book is to provide you with an opportunity to work on life and employability skills. Finally a checklist and templates are provided to ensure post release readiness. By the grace of God most people have not been incarcerated and probably cannot imagine how their life would have turned out if they had gone to prison. It is my prayer that if you or your family member or a church partner are reading this book they will believe you are worth it and want to reinvest in you to give you a second chance. We all deserve a second chance. Certainly God has provided for a lifetime of chances.
