**Development and Testing of Vehicle Software and its Influence on Sustainable Transport** Antonio Colmenar-Santos, David

Borge-Diez, Pedro-Miguel Ortega-Cabezas, 2024-01-10 This book evaluates the contributions of the electronic control unit software of an electric vehicle on sustainability and society such as the reduction of emissions during a product design and the improvements in the vehicle. A sustainable transport model is proposed demonstrating its economic viability. By validating software in a more efficient way and adding new functionalities to the software to enhance driving efficiency, energy consumption can be significantly reduced. Therefore, software validation and development have a significant impact on sustainability. This book offers innovative validation solutions based on artificial intelligence techniques to reduce validation time and emissions. The impact of driving efficiency on sustainable transport models is studied in detail, making proposals to be considered in the current environmental policies under discussion within the European Union in order to improve the sustainability of transport models. Vehicles are becoming sophisticated electronic systems due to the fact that they are integrating a significant number of electronic control units. This trend will certainly continue in the year to come. Consequently, software validation techniques are a key element for car manufacturers in order to ensure the quality of the vehicle. This book contributes to these efforts.

**Behaviour of Lithium-Ion Batteries in Electric Vehicles** Gianfranco Pistoia, Boryann Liaw, 2018-02-10 This book surveys state of the art research on and developments in lithium ion batteries for hybrid and electric vehicles. It summarizes their features in terms of performance, cost, service life, management, charging facilities and safety. Vehicle electrification is now commonly accepted as a means of reducing fossil fuels consumption and air pollution. At present, every electric vehicle on the road is powered by a lithium ion battery.
