DISCLOSURE STATEMENT: The authors have nothing to disclose.

- * After reading this manual, be sure to keep it together with the OPERATING INSTRUCTIONS in a handy place on the customer's site.

⚠ WARNING

- Do not install the unit if you are a customer. Improper installation could cause injury due to fire, electric shock, the unit falling or leakage of water. Contact the dealer from whom you purchased the unit for special advice.
- Install the unit securely in a place which can bear the weight of the unit. When installed in an insufficient strong place, the unit could fall causing injury.
- Use the specified wires to connect the indoor and outdoor units securely and attach the wires firmly to the terminal block connecting sections on the stress of the wires is not applied to the sections.
- Complete connecting and fixing right away.
- Do not use intermediate connection of the power cord or the extension cord and do not connect multiple cords to one AC outlet. Loose contact is fire or an electric shock due to electric contact, defective insulation, exceeding the permitted current, etc.
- Check that the refrigerant gas does not leak after installation has completed. If refrigerant gas leaks indoors, and comes into contact with marble etc. for heads, glass heads, stone, etc., harmful substances will be generated.
- Perform the installation securely referring to the installation manual. Improper installation could cause a personal injury due to fire, electric shock, the unit falling or leakage of water.
- Perform electrical work according to the installation manual and be sure to use an electrical circuit. If the capacity of the power cord is insufficient or there is insufficient electrical work, it could result in a fire or an electric shock.
- Attach the electrical cover to the outdoor unit and the service panel to the outdoor unit securely. If the electrical cover in the indoor unit or the service panel in the outdoor unit are not attached securely, it could result in a fire or an electric shock due to short-circuit, etc.
- Be sure to use the part provided or specified parts for the installation work. The use of substitute parts could cause an injury due to fire, fire, an electric shock, the unit falling, leakage of water, etc.
- Be sure to cut off the main power in case of working up the indoor electronic control P.C. board or wiring works. Loose causes an electric shock.
- The appliance shall be installed in accordance with national wiring requirements.
- When installing or servicing the unit, make sure that no outside fire other than the specified refrigerant (R410A) enters the refrigerant circuit. Any presence of foreign substance such as air can cause abnormal pressure rise or an explosion.

CAUTION
