The IFPUG Guide to IT and Software Measurement IFPUG, 2012-04-25 The widespread deployment of millions of current

and emerging software applications has placed software economic studies among the most critical of any form of business analysis. Unfortunately, a lack of an integrated suite of metrics makes software economic analysis extremely difficult. The International Function Point Users Group (IFPUG), a nonprofit and member-governed organization, has become the recognized leader in promoting the effective management of application software development and maintenance activities. The IFPUG Guide to IT and Software Measurement brings together 52 leading software measurement experts from 13 different countries who share their insights and expertise. Covering measurement programs, function points in measurement, new technologies, and metrics analysis, this volume illustrates software measurement's role in new and emerging technologies. Addresses the impact of agile development on software measurement. Presents measurement as a powerful tool for auditing and accountability. Includes metrics for the CIO. Edited by IFPUG's Management and Reporting Committee, the text is useful for IT project managers, process improvement specialists, measurement professionals, and business professionals who need to interact with IT professionals and participate in IT decision making. It includes coverage of cloud computing, agile development, quantitative project management, process improvement, measurement as a tool in accountability, project ROI, measurement metrics for the CIO, value stream mapping, and benchmarking.

Mastering SAP BRIM and CPQ: A Guide to Digital Transformation PRAKASH SUBRAMANI DEEPENDRA RASTOGI, 2024-12-22

In today's rapidly evolving digital landscape, businesses are increasingly turning to integrated solutions to streamline their operations, enhance customer experiences, and drive growth. SAP Billing and Revenue Innovation Management (BRIM) and Configure Price Quote (CPQ) are two such solutions that empower organizations to modernize and transform their billing, revenue management, and sales processes. This book, *Mastering SAP BRIM and CPQ: A Guide to Digital Transformation*, is designed to provide a comprehensive guide to understanding, implementing, and optimizing SAP's BRIM and CPQ solutions for businesses aiming to embrace digital transformation. The journey of digital transformation involves adopting innovative technologies and aligning them with a company's strategic goals. SAP BRIM offers a suite of applications that enable businesses to manage subscription-based services, usage-based billing, and complex revenue recognition processes. Meanwhile, SAP CPQ streamlines the sales process by enabling organizations to configure price and quote products or services accurately and efficiently. Together, these tools not only simplify complex workflows but also provide a unified approach to managing the entire lifecycle of customer engagement, from initial inquiry to contract renewal. Through this book, readers will gain practical insights into the capabilities of SAP BRIM and CPQ, their integration with other enterprise systems, and the benefits they offer in driving operational efficiency and customer satisfaction. Whether you are a business leader, SAP consultant, or IT professional, this guide will equip you with the knowledge necessary to leverage these powerful tools to their full potential, ultimately transforming your organization's approach to billing, revenue management, and sales. As we explore the key concepts, challenges, and best practices associated with SAP BRIM and CPQ, our goal is to help you navigate the complexities of digital

transformation and unlock new opportunities for growth in the modern business world Thank you for embarking on this journey with us Authors
