Nisbet, Claude Rawson, 2005-12-08 This is a comprehensive 1997 account of the history of literary criticism in Britain and Europe between 1660 and 1800 Unlike previous histories it is not just a chronological survey of critical writing but a multidisciplinary investigation of how the understanding of literature and its various genres was transformed at the start of the modern era by developments in philosophy psychology the natural sciences linguistics and other disciplines as well as in society at large In the process modern literary theory at first often implicit in literary texts themselves emancipated itself from classical poetics and rhetoric and literary criticism emerged as a full time professional activity catering for an expanding literate public The volume is international both in coverage and in authorship Extensive bibliographies provide guidance for further specialised study **Roland Barthes Writing the Political** Andrew Stafford, 2022-11-08 With typical rhetorical flourish and beholden to paradox Roland Barthes defines his work on myth as an attempt to define things and yet he is known foremost for his work on language The aim of this book is to take things here as social relations objects and other human beings with which the self interacts It does so via language And language in Barthes s conception is double alienating alienated on the one side liberating inspiring on the other It is this double that we investigate in this book A spectre is haunting Barthes studies the spectre of dialectics and the spectral presence of dialectics is what we will define in this book as the Barthesian spirit in both senses of the word that is haunting his analyses and at once providing us with a double approach I have tried to define things not words Barthes 2009 131n1
